

How do I register for i-MSecure?

- i) Click on Other Services > My Data > Token Registration on the sub menu tab. System will display Token Registration page.

The screenshot shows the Bank Muamalat i-MSecure interface. At the top, there is a navigation bar with the Bank Muamalat logo on the left and the i-muamalat logo on the right. Below the navigation bar, there is a menu with options: Home, My Accounts, Transfers, Payments, Prepaid Reload, Gold-i, Online Application, and Other Services. A 'Logout >>' button is visible in the top right corner. The main content area is titled 'Token Registration' and includes a 'Welcome User,' message. On the left, there is a sidebar menu with options: Other Services, My Data, My Profile, Change Security Question, Change Security Image, Change Transaction Limits, Change Password, Change Default Account, Update Mobile Number for TAC, and Token Registration. The main content area displays the following information:

Software Token Status	: Not Activated	Register
Token Serial Number	: -	
Token Maintenance Date	: -	
Device Name	: -	
Device OS	: -	

Below this information, there is a text input field labeled 'Software Token Terms and Conditions' containing the text 'Test'. A 'Print' button is located at the bottom right of the page.

- ii) Click on 'Register' button. System will direct to Token Registration Confirmation page and a TAC number will be send to your respective registered mobile TAC number.
- iii) Input TAC, and click on 'Confirm' button. System will display Token Registration Acknowledgement page.

The screenshot shows the Bank Muamalat i-MSecure interface for the 'Token Registration Confirmation' page. The layout is similar to the previous page, with the same navigation bar and sidebar menu. The main content area is titled 'Token Registration Confirmation' and includes a 'Welcome User,' message. The main content area displays the following information:

Please enter 6 digits Transaction Authorisation Code (TAC) to activate Software Token for your account

Transaction Authorization Code	:	<input type="text" value="*****"/>	Request TAC
--------------------------------	---	------------------------------------	-----------------------------

Do not receive? Please click button to request again.

At the bottom, there are two buttons: 'Back' and 'Confirm'.

Test

To add device, please perform the following steps:

1. Launch i-Muamalat Mobile App and tap on Software Token button.
2. Camera will be activated, scan the below QR code using i-Muamalat Mobile App in your device.

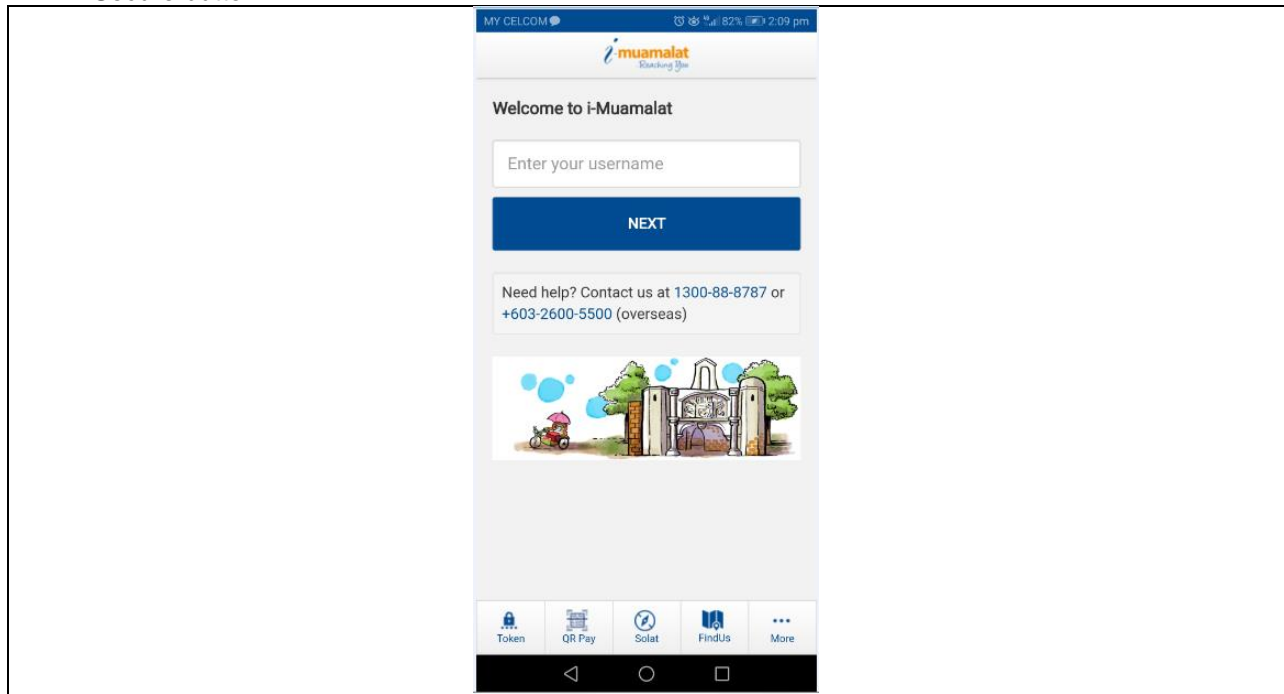

The QR Code will refresh in 02 minute(s) 20 second(s)

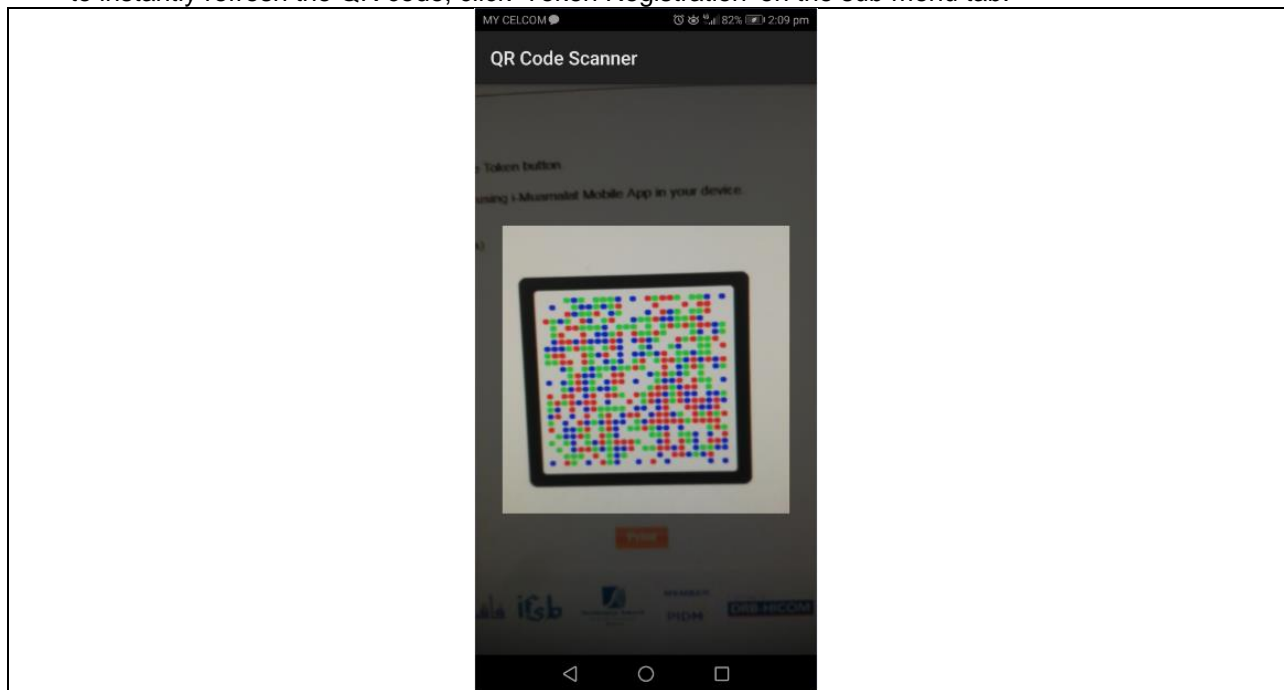

Print

How do I add a device for i-MSecure?

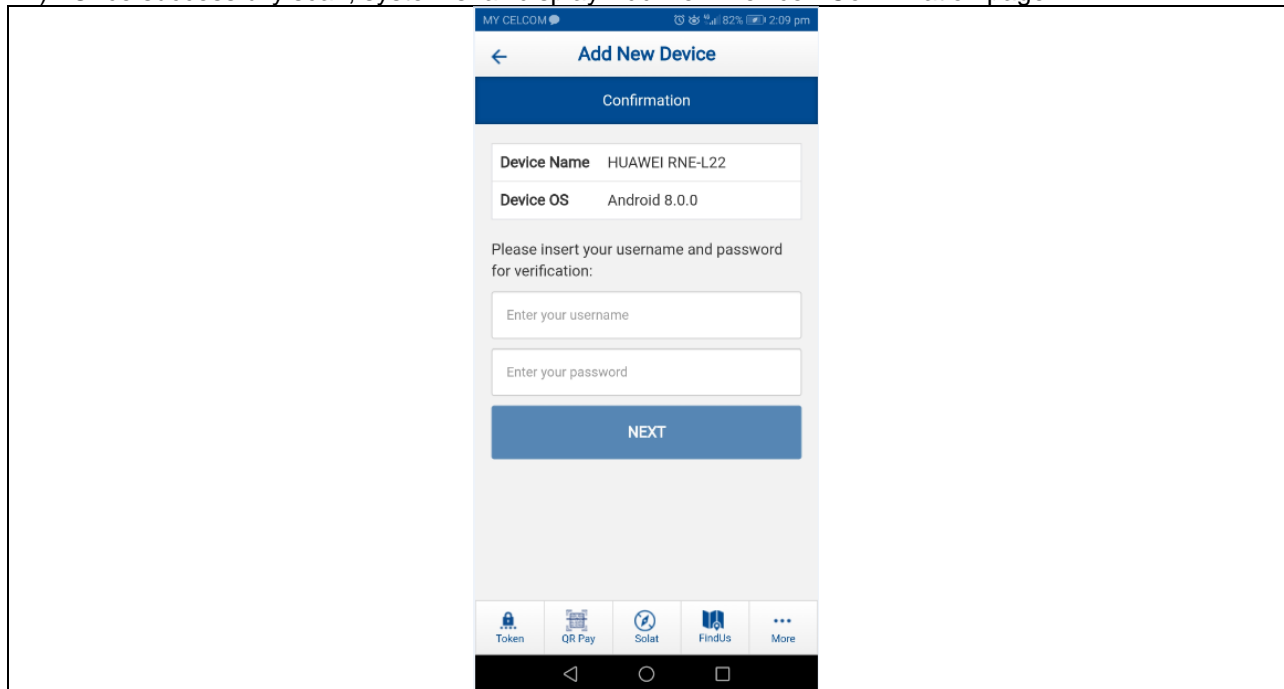

- i) To add device, please launch latest i-Muamalat Mobile Application in your device and tap on i-MSecure button.

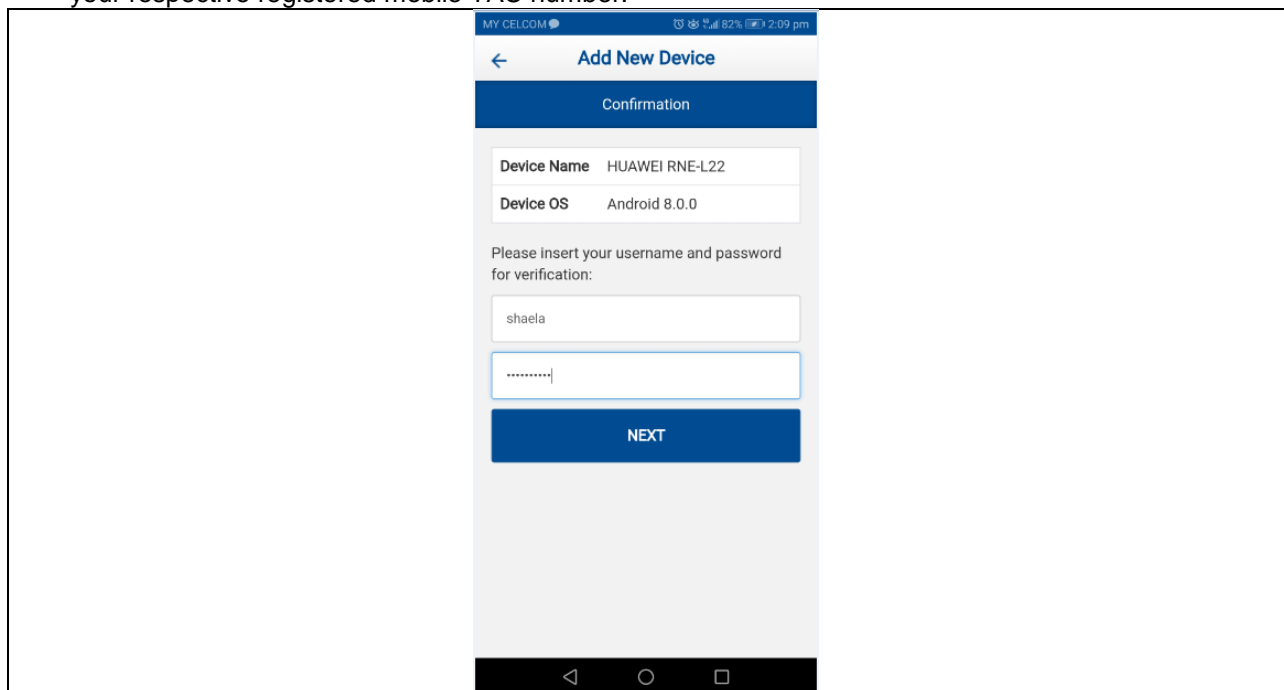

- ii) Camera will be activated, point the device's camera at the QR code displayed in i-Muamalat Web > Token Registration page and scan. If your device's camera could not detect the QR code & you need to instantly refresh the QR code, click 'Token Registration' on the sub menu tab.

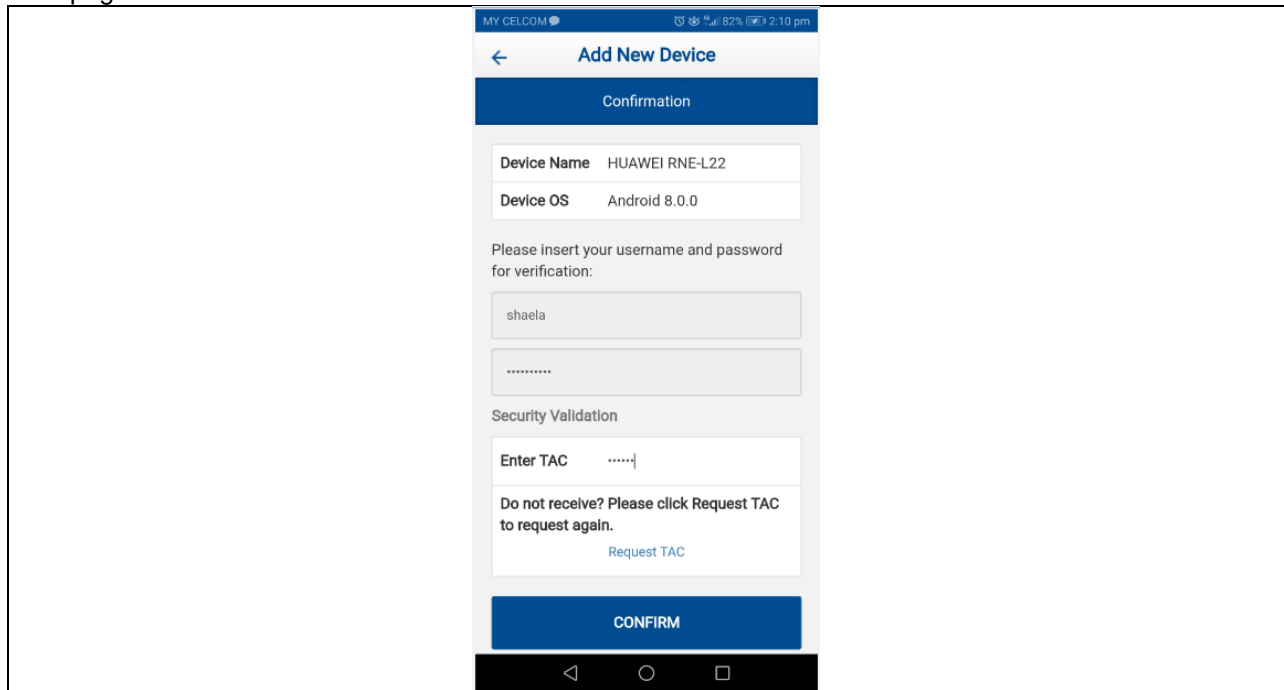

iii) Once successfully scan, system shall display Add New Device - Confirmation page.

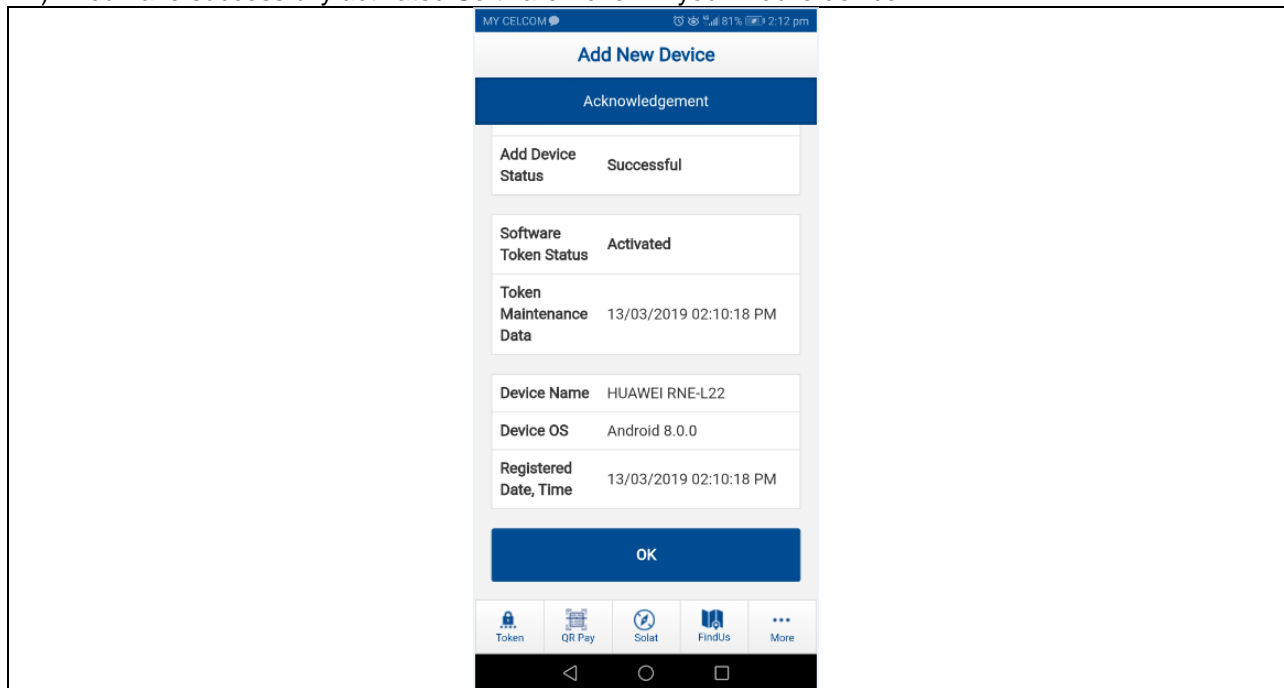

iv) Enter your username and password and tap 'Next'. System will generate a TAC number and send to your respective registered mobile TAC number.

v) Input TAC, and click on 'Confirm' button. System will direct to Add New Device - Acknowledgement page.

vi) You have successfully activated Software Token in your mobile device.

How do I delete a device for i-MSecure?

- i) Click on Other Services > My Data > Token Registration on the sub menu tab. System will display Token Registration page.

The screenshot shows the 'Token Registration' page in the i-MSecure interface. The page header includes the Bank Muamalat logo and the slogan 'i-muamalat Reaching You'. A navigation menu at the top lists various services, with 'Other Services' selected. A sidebar on the left contains a menu with 'Token Registration' highlighted. The main content area displays the following information:

Software Token Status	: Activated
Token Serial Number	: FDR1399434
Token Maintenance Date	: 2019-03-13 14:21:06.97
Device Name	: HUAWEI RNE-L22 Delete
Device OS	: ANDROID

Below this information is a text box containing the text: 'Authorisation and Authentication Customer acknowledges and agrees that for the purpose of'. A 'Print' button is located at the bottom right of the page.

- ii) Click on 'Delete' button in Token Registration page. System will display Delete Device Confirmation page and a TAC number will be send to your respective registered mobile TAC number.

The screenshot shows the 'Delete Device Confirmation' page in the i-MSecure interface. The page header and navigation menu are identical to the previous screenshot. The sidebar menu also remains the same. The main content area displays the following information:

Please enter 6 digits Transaction Authorisation Code (TAC) to delete below device.

Device Name	: HUAWEI RNE-L22
Device OS	: ANDROID
Transaction Authorization Code	: <input type="text"/> Request TAC

Below the code field is the text: 'Do not receive? Please click button to request again.' At the bottom of the page are two buttons: 'Back' and 'Confirm'.

iii) Input TAC, and click on 'Confirm' button. System will display Delete Device Acknowledgement page.
