#### **EXPLANATORY NOTE:**

This Second Supplemental Master Prospectus has been issued to inform investors of the following:

- The investment policy and strategy and permitted investment of KGF has been updated.
- The information under Section 4 – Specific Risks Associated when investing in Equity Funds has been updated.
- A new section 7.6 – Borrowings and Securities Lending has been inserted.
- The issuance of the new supplemental and/or supplemental master deeds in relation to the Funds.

#### **A. THE FUNDS**

##### **Page 9 of the Master Prospectus**

The information in relation to investment policy and strategy under Section 3.2 – Kenanga Growth Fund (KGF) is hereby deleted in its entirety and replaced with the following:

The Fund's assets are actively invested in a diversified portfolio of Malaysian equity and equity-related securities.

The Fund may invest up to 25% of the Fund's NAV in foreign markets, which may include but not limited to Singapore, Indonesia, Thailand, Philippines, Vietnam, India, Hong Kong, China, Japan, Korea, Taiwan, Australia, United States of America and any other Eligible Markets where the regulatory authority is an ordinary or associate member of the International Organization of Securities Commissions.

The Fund does not have an active asset allocation strategy but seeks to manage portfolios by investing in companies that satisfy the criteria of having a sustainable and credible business model, and are also trading at a discount to their intrinsic value. However, under conditions of extreme market volatility and/or when the market is trading at valuations deemed unsustainable, the Fund will seek to judiciously scale back its equity exposure.

The Manager adopts an active investment management approach which takes a longer term view. This approach is not based on a "frequent-trading" strategy, however the frequency of the Fund's trading strategy will be very much determined pursuant to the investment process and prevailing market opportunities.

The Manager may employ currency hedging strategies to fully or partially hedge the Fund's foreign currency exposure.

##### Other Investment Strategies

In addition to the investment strategies discussed above, the Manager may invest up to 10% of the Fund's NAV in L&I funds. Through the L&I funds, the Manager would be able to hedge against a bearish market or mitigate a panic market sell-down by investing in an inverse exchange-traded fund. On the other note, the Manager may take advantage of a market uptrend by investing in a leveraged exchange-traded fund to enhance the performance of the Fund.

Utilising L&I funds like all investments involves a certain degree of risk. Though L&I funds is supposedly designed to track the performance of the index, there are bound to have tracking error between the performances of the L&I funds and the tracked index. The market price of L&I funds will generally fluctuate in accordance with the supply of and demand for the units of the L&I funds; whereby the trading price of L&I funds may also differ from the L&I funds' net asset value.

**This Second Supplemental Master Prospectus is supplementary to and has to be read in conjunction with the Master Prospectus dated 29 March 2019 and the Supplemental Master Prospectus dated 15 April 2020.**

Therefore, the ease with L&I funds can be sold at or near its fair value depending very much on the volume traded on the market. In essence, investing into widely recognised and tradable L&I funds will eventually lead to portfolio management in a more efficient manner. If the fund manager inadvertently makes a wrong investment decision to invest in a leveraged exchange-traded fund during a market downtrend or if the fund manager inadvertently makes a wrong investment decision to invest in an inverse exchange-traded fund during a market uptrend, the NAV of the Fund will be adversely affected. As such, taking a position in L&I funds pose a risk if markets move in an opposite direction, or an opportunity if the positions are correct. However, any gains or losses in the portfolio is limited to the nominal exposure of the L&I funds it partakes in.

As part of KIB's risk management strategy and policy, KIB will be managing the investments into L&I funds in accordance with its in-house investment rules. In addition, KIB's risk management team monitors and has oversight over the investment activities undertaken by the Fund. Risk management reports are submitted to the investment committee on a quarterly basis.

#### Types and Characteristics of Instruments

The Fund invests in the equity and equity-related securities of companies with suitable sustainable business models and which are trading at a discount to their intrinsic value. The Fund does not have a particular investment bias e.g. between growth or value stocks, be they small-cap, mid-cap or large-cap. The Fund will however seek to maximise the highest investment returns possible pursuant to the levels of risk it considers appropriate from time to time.

The Fund may also invest in equity related securities such as warrants and convertible loan stocks which are capable of being converted into new shares.

#### Temporary Defensive Measures

In times of extreme market volatility and/or when market valuation is at a level deem unsustainable, the Fund will judiciously scale back its equity exposure to below its normal operating range of 75% to 95% of the Fund's NAV. The cash will be place-out into money market instruments and/or deposits.

### 3. THE FUNDS

#### 3.1 Kenanga Premier Fund (KPF)

<b>Fund Category</b>	Equity
<b>Fund Type</b>	Growth
<b>Launch Date</b>	26 November 1996
<b>Investment Objective</b>	KPF aims to provide consistent annual returns and medium to long-term capital appreciation. <i>Any material changes to the investment objective of the Fund would require the Unit Holders' approval.</i>
<b>Investment Policy and Strategy</b>	<p>KPF seeks to maximise total returns by providing investors with a combination of capital appreciation and income distribution, if any, while reducing risk through diversified investments mainly in equities which are broadly summarised as follows:</p> <ol style="list-style-type: none"> <li>1. to invest in any combination of equity and equity-related securities;</li> <li>2. to invest in securities which are readily marketable, although a proportion of the Fund may consist of investments in equities of smaller quoted companies; and</li> <li>3. to invest in futures market for hedging purposes only.</li> </ol> <p>In selecting investments, emphasis is placed on prospects for significant growth in the long-term and in particular, companies which have strong fundamentals and sound management.</p> <p>The Fund is managed on an active bottom-up growth strategy, and adopts a moderate trading strategy in line with the Fund's objective.</p> <p>Asset allocation is actively managed to commensurate with expected risk/reward ratio for the market. The minimum percentage of investment in equities is at least 70% of the NAV at any time.</p> <p>We adopt an active investment management approach that is not a 'frequent-trading' strategy, however the frequency of its trading strategy will very much determine by the prevailing market opportunities.</p> <p><b><u>Types and Characteristics Of Instruments</u></b></p> <p>The Fund invests in growth stocks irrespective of market capitalisation, however, smaller market capitalised companies may run higher liquidity risk than normal.</p> <p><b><u>Temporary Defensive Measures</u></b></p> <p>These can be undertaken upon consultation with the investment committee and can include high level of cash and/or fixed income instruments over equities. The cash will be place-out into money market instruments and/or deposits.</p>
<b>Asset Allocation</b>	<ul style="list-style-type: none"> <li>• 70% - 98% of the Fund's NAV – Equities &amp; equity-related securities</li> <li>• Minimum 2% of the Fund's NAV - Liquid assets</li> </ul>
<b>Risk Management Strategies</b>	<p>We use active asset allocation and stock volatility to control risk.</p> <p>On country risk, country allocations are driven by our stock selection process and we constantly monitor country allocations to ensure that we are only taking measured bets away from the benchmark.</p> <p>On currency risk, generally, we do not hedge the currency risks. However, we may take into account and may hedge to reduce such risks by investing in foreign currency futures contracts, swaps, futures or any combination of such instruments.</p>

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

<b>Distribution Policy</b>	The Fund intends to pay income by way of distributions or by the creation of additional Units after the end of each Accrual Period or any specified period, where possible.
<b>Performance Benchmark</b>	FTSE-Bursa Malaysia 100 Index  (Information on performance benchmark can be obtained from <a href="http://www.bursamalaysia.com">www.bursamalaysia.com</a> and local national newspaper).
<b>Permitted Investment</b>	<p>Unless otherwise prohibited by the relevant authorities or any relevant law and provided always that there are no inconsistencies with the objective of the Fund, the Fund is permitted under the Deed to invest in the following:</p> <ol style="list-style-type: none"> <li>1. Securities of companies listed on the Bursa Malaysia;</li> <li>2. Units or shares of collective investment schemes;</li> <li>3. Securities traded in a foreign market subject to the provisions in the Guidelines;</li> <li>4. Unlisted securities of Malaysian corporations;</li> <li>5. MGS, treasury bills, Bank Negara Malaysia certificates, and government investment certificates;</li> <li>6. Malaysian currency deposits with financial institutions including negotiable certificates of deposit;</li> <li>7. Cagamas bonds, bankers' acceptances and unlisted loan stocks which are traded in or under the rules of an Eligible Market and are either bank guaranteed or carry at least BBB3 rating by RAM and corporate bonds which are rated at least BBB3 by RAM;</li> <li>8. Derivatives for hedging purposes; and</li> <li>9. Any other form of investments as may be permitted by the SC and in accordance to the Fund's objective.</li> </ol>
<b>Investment Restrictions and Limits</b>	<p>The investment restrictions and limits of the Fund are as follows:</p> <ol style="list-style-type: none"> <li>1. The value of the Fund's investments in unlisted securities must not exceed 10% of the Fund's NAV;</li> <li>2. The value of the Fund's investments in ordinary shares issued by any single issuer must not exceed 10% of the Fund's NAV;</li> <li>3. The value of the Fund's investments in transferable securities and money market instruments issued by any single issuer must not exceed 15% of the Fund's NAV;</li> <li>4. The value of the Fund's placement in deposits with any single financial institution must not exceed 20% of the Fund's NAV;</li> <li>5. For investment in derivatives, the exposure to the underlying assets must not exceed the investment spread limits stipulated in the Guidelines and the value of the Fund's over-the-counter (OTC) derivative transaction with any single counter-party must not exceed 10% of the Fund's NAV;</li> <li>6. The aggregate value of the Fund's investments in transferable securities, money market instruments, deposits, OTC derivatives and structured products issued by or placed with (as the case may be) any single issuer/ financial institution must not exceed 25% of the Fund's NAV;</li> <li>7. The value of the Fund's investments in units/shares of any collective investment scheme must not exceed 20% of the Fund's NAV;</li> <li>8. The value of the Fund's investments in transferable securities and money market instruments issued by any group of companies must not exceed 20% of the Fund's NAV;</li> <li>9. The Fund's investments in transferable securities (other than debentures) must not exceed 10% of the securities issued by any single issuer;</li> <li>10. The Fund's investments in debentures must not exceed 20% of the debentures issued by any single issuer;</li> <li>11. The Fund's investments in money market instruments must not exceed 10% of the instruments issued by any single issuer. However, this limit does not apply to money market instruments that do not have a pre-determined issue size;</li> </ol>

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

	<p>12. The Fund's investments in collective investment schemes must not exceed 25% of the units/shares in any one collective investment scheme;</p> <p>13. The Fund's investment in foreign markets must not exceed 30% of the Fund's NAV.</p> <p>The above stated limits and restrictions shall be complied with at all times based on the most up-to-date value of the Fund's investments. However, a 5% allowance in excess of any limit or restriction may be permitted where the limit or restriction is breached through the appreciation or depreciation in the NAV of the Fund (as a result of an appreciation or depreciation in value of investments or as a result of the purchase of Units or payment made from the Fund). Once the relevant limit is breached, no further acquisitions of the particular securities involved shall be made and the Manager should, within a reasonable period of not more than three (3) months from the date of the breach, take all necessary steps and actions to rectify the breach.</p> <p>There are no restrictions and limits imposed on securities or instruments issued or guaranteed by the Malaysian government or BNM.</p>
<b>Investors' Profile</b>	KPF is suitable for investors who are willing to accept moderate to high risk in order to achieve a reasonable return on their capital over the medium to long-term period. This enables the investors to withstand extended periods of market highs and lows in the pursuit of capital growth with KPF.
<b>Financial Year End</b>	28 February

### 3.4 Kenanga Asia Pacific Total Return Fund (KAPTRF)

<b>Fund Category</b>	Equity
<b>Fund Type</b>	Growth
<b>Launch Date</b>	11 July 2013
<b>Investment Objective</b>	<p>KAPTRF aims to provide capital appreciation over the long-term (over 5 years) by investing in equities and equity related securities of companies in the Asia Pacific region.</p> <p><i>Any material changes to the investment objective of the Fund would require the Unit Holders' approval.</i></p>
<b>Investment Policy and Strategy</b>	<p>The Fund seeks to achieve its investment objective by investing in a diversified portfolio of equities and equity related securities of companies in the Asia Pacific region.</p> <p>The countries that the Fund may invest in will include, but are not limited to, Malaysia, Singapore, Indonesia, Thailand, Philippines, India, Hong Kong and China (via the Hong Kong Stock Exchange), Japan, Korea, Taiwan, Australia and Vietnam.</p> <p>The balance of the Fund's NAV that is not invested in equities and equity related securities will be held in deposits or invested in money market instruments.</p> <p>The Manager will seek to invest in companies which have a sustainable business model and are well managed. A particular company's representation in the relevant market indices will not be considered by the Manager as the Manager is of the view that it does not necessarily provide a meaningful guidance on the prospects of the said company or its inherent worth.</p> <p>The Manager's investment process seeks to exploit businesses with sustainable returns on equity ("ROE")*, which are trading at a significant discount to their intrinsic value. We believe ROE to be a suitable gauge of the success of a business as it provides common shareholders with a sustainable measure of how effectively their investment capital is being employed over a given period of time. Further, we believe ROE is a measure of the four essential components of any business which are, strategy, processes (operational and financial), people and execution capability.</p> <p><i>*Note:</i></p> <p><i>ROE means the amount of net income returned as a percentage of shareholders equity. Return on equity measures a corporation's profitability by revealing how much profit a company generates with the money shareholders have invested. ROE is expressed as a percentage and calculated as: <b>net income / shareholders' equity = return on equity.</b></i></p> <p>The base currency of the Fund is in Malaysian Ringgit and as the Fund's investments in the countries within the Asia Pacific region will be denominated in different currencies, the Manager intends to employ hedging to reduce the Fund's exposure to foreign exchange fluctuations. The hedging will be done through derivatives instruments such as foreign exchange forwards. The Fund will limit the use of derivatives to hedge for currency movements only.</p> <p>We adopt an active investment management approach that is not a 'frequent-trading' strategy, however the frequency of its trading strategy will very much determine by the prevailing market opportunities.</p> <p><b>Investment Process Flowchart Schematic</b></p> <pre> graph LR     S1[Step 1: Universe] -- stocks --&gt; S2[Step 2: Idea Generation &amp; Screening]     S2 -- stocks --&gt; S3[Step 3: Stock Selection Criteria]     S3 -- stocks --&gt; S4[Step 4: Industry Verification]     S4 -- stocks --&gt; S5[Step 5: Valuation]     S5 -- "*Sell*" --&gt; S6[Step 6: Portfolio Construction &amp; Management]     S6 -- "*Buy*" --&gt; S5     </pre> <p>**Discipline*</p>

\*Note:

“Discipline” in the context means the decision to purchase or sell a particular security.

Idea Generation and Screening

Investment idea sources include industry experts\*, stockbroker research, press reports, published industry and corporate reports, trade journals, accumulated experience and personal observations. Stocks are screened with regard to market liquidity and certain predetermined financial ratios.

Stock Selection Criteria

The Manager believes that sound company fundamentals drive stock prices over time. Accordingly, a stock which has passed the “screening test” will then be subjected to detailed scrutiny which focuses on its business model and value proposition, the quality of its management and earnings, its balance sheet strength, and its cash generating ability.

Industry Verification Test

The Manager is of the view that in-depth industry knowledge and business expertise are the key drivers for any company. Accordingly, if a stock passes the “stock selection criteria test”, it will then be subjected to verification by industry experts\* who can usually add deep and valuable insights into the Manager’s assumptions with regard to the stocks’ potential.

\*Note:

*“industry experts” are people with the relevant industry knowledge or expertise, considered by the Manager to be able to provide critical insights into the industry within which the Manager may seek to invest. For example, people who have known specific skill and experience within an industry and long-term members of trade organizations (relevant to the company which stocks the Manager intends to invest in).*

Valuation

Whilst the Manager seeks to identify and invest in stocks of companies which are expected to generate a reasonable return on equity, and have passed the two tests noted above, the Manager will not invest in stocks of those companies which compromise the Manager’s view on their “true” (or intrinsic) value. The Manager will use its internal valuation techniques (such as “discounted cash flow” and “relative valuation”) to determine the “true” value of the stock.

The Manager when using its “buy / sell” discipline, will seek to invest in a stock if it believes that the stock is undervalued. If a particular stock held by the Fund becomes overvalued, the Manager will sell the stock.

Portfolio Construction and Management

The Manager will construct the Fund’s portfolio based on the prevailing (and changing) levels of risk accumulation and concentration as the Manager seeks to capture targeted returns. The Fund’s portfolio will be built (one stock at a time) and managed with due regard to both “upside” and “downside” risk potential. This approach aims to create a diversification strategy which maximises the Manager’s view on the portfolio’s risk / return potential.

Temporary Defensive Measures

The Manager may take a temporary defensive position during adverse market conditions. In times of extreme market volatility and/or when market valuation is at a level considered unsustainable, the Fund will judiciously scale back its equity exposure below its normal operating range of 70% to 99% of the Fund’s NAV. During such times, the Manager will invest in investments which the Manager considers may better preserve the value of the Fund (for example, money market instruments) although not necessarily meeting entirely the growth objective of the Fund. For the avoidance of doubt, please note that this is not a capital guaranteed or capital protected fund.

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

<p><b>Asset Allocation</b></p>	<p><b>Equities and equity related securities allocation:</b></p> <ul style="list-style-type: none"> <li>• Minimum: 70% of the Fund's NAV</li> <li>• Maximum: 99% of the Fund's NAV</li> </ul> <p><b>Deposits and money market instruments allocation:</b></p> <ul style="list-style-type: none"> <li>• Minimum: 1% of the Fund's NAV</li> <li>• Maximum: 30% of the Fund's NAV</li> </ul>
<p><b>Risk Management Strategies</b></p>	<p>Portfolio risk management is central to the Manager's investment process. Portfolio risk management can therefore include the application of policies, procedures and practices which continually seek to identify, analyse, assess, control and mitigate unacceptable risk as it accumulates and/or concentrates within a portfolio. Accordingly, the portfolio of the Fund is subjected to numerous risk management techniques including stock exposure limits (company, sector, country etc), pre-determined stock liquidity levels and risk budgets, and clear "buy / sell" and "stop loss" disciplines.</p>
<p><b>Distribution Policy</b></p>	<p>As the objective of the Fund is to provide capital appreciation, distribution of income, if any, will be incidental.</p>
<p><b>Performance Benchmark</b></p>	<p>The performance benchmark is 10% growth in NAV per annum (compounded*) over the long-term.</p> <p><i>Please note that this is <b>not</b> a guaranteed return, but a benchmark against which the performance of the Fund may be measured. The Fund may or may not achieve the compounded return* of 10% of the NAV per annum but targets to achieve this growth over the long-term.</i></p> <p>*The following is a brief explanation on "compounded return":</p> <p>Compounded return is the rate of return, usually expressed as a percentage that represents the cumulative effect that a series of gains or losses have on an original amount of capital over a period of time. Compound returns are usually expressed in annual terms, meaning that the percentage number that is reported represents the annualized rate at which capital has compounded over time.</p> <p>For example, if an investment fund claims to have produced a 10% annual compound return over the past five years, this means that at the end of its fifth year, the fund's capital has grown to a size equal to what it would be if the funds on hand at the beginning of each year had earned exactly 10% by the end of each year.</p> <p>In other words, suppose you started with an initial investment of RM1,000. If you multiply RM1,000 by 1.1 five times, you will end up with about RM1,611. If an investment of RM1,000 ended up being worth RM1,611 by the end of five years, the investment could be said to have generated a 10% annual compound return over that five-year period.</p> <p>However, this <b>does not mean</b> that the investment actually appreciated by 10% during each of the five years. Any pattern of growth that led to a final value of RM1,611 after five years would equate to a 10% annualized return. Suppose the investment earned nothing for the first four years, and then earned RM611 in its last year (a 61.1% return for the year). This would still equate to a 10% annual compound return over the five-year measurement period, since the final amount is still equal to what the RM1,000 would have grown to if it had appreciated by a steady 10% each year.</p>

### 3.5 Kenanga ASEAN Tactical Total Return Fund (KATTRF)

<b>Fund Category</b>	Equity
<b>Fund Type</b>	Growth
<b>Launch Date</b>	1 July 2015
<b>Investment Objective</b>	<p>KATTRF aims to provide capital appreciation over the long-term (over 5 years) by investing in equities and equity related securities of companies in the ASEAN region.</p> <p><i>Any material changes to the investment objective of the Fund would require the Unit Holders' approval.</i></p>
<b>Investment Policy and Strategy</b>	<p>The Fund seeks to achieve its investment objective by tactically allocating the portfolio during favourable market conditions in a diversified portfolio of equities and equity-related securities* whilst in adverse market conditions to reallocate between 1% - 30% of the Fund's NAV in deposits or money market instruments with the objective of achieving sustainable long-term positive returns. The tactical allocation between equities and equity-related securities* and deposits and money market instruments will be actively reviewed at least on a monthly basis or at more frequent basis depending on the market environment.</p> <p>* <i>"Equity related securities" refers to warrants, convertible loan stocks, transferable subscription rights and depository receipts.</i></p> <p>The ASEAN countries that the Fund may invest in will include, but are not limited to, Malaysia, Singapore, Indonesia, Thailand, Philippines and Vietnam.</p> <p>The balance of the Fund's NAV that is not invested in equities and equity related securities will be held in deposits or invested in money market instruments.</p> <p>The Manager will seek to invest in companies which have a sustainable business model and are well managed. A particular company's representation in its respective country's market index will not be considered by the Manager as the Manager is of the view that it does not necessarily provide a meaningful guidance on the prospects of the said company or its inherent worth.</p> <p>The Manager's investment process seeks to exploit businesses with sustainable returns on equity ("ROE")*, which are trading at a significant discount to their intrinsic value. We believe ROE to be a suitable gauge of the success of a business as it provides common shareholders with a sustainable measure of how effectively their investment capital is being employed over a given period of time. Furthermore, we believe ROE is a measure of the four essential components of any business which are, strategy, processes (operational and financial), people and execution capability.</p> <p><i>*Note:</i></p> <p><i>ROE means the amount of net income returned as a percentage of shareholders equity. ROE measures a corporation's profitability by revealing how much profit a company generates with the money shareholders have invested. ROE is expressed as a percentage and calculated as: <b>net income / shareholders' equity = ROE.</b></i></p> <p>The base currency of the Fund is in Malaysian Ringgit and as the Fund's investments in the countries within the ASEAN region will be denominated in different currencies, the Manager intends to employ hedging to reduce the Fund's exposure to foreign exchange fluctuations. The hedging will be done through derivatives instruments such as foreign exchange forwards. The Fund will limit the use of derivatives to hedge for currency movements only.</p> <p>We adopt an active investment management approach that is not a 'frequent-trading' strategy, however the frequency of its trading strategy will very much determine by the prevailing market opportunities.</p>

### Investment Process Flowchart Schematic

\*Note: "Discipline" in the context means the decision to purchase or sell a particular security.

#### Idea Generation and Screening

Investment idea sources include industry experts\*, stockbroker research, press reports, published industry and corporate reports, trade journals, accumulated experience and personal observations. Stocks are screened with regard to market liquidity and certain predetermined financial ratios.

#### Stock Selection Criteria

The Manager believes that sound company fundamentals drive stock prices over time. Accordingly, a stock which has passed the "screening test" will then be subjected to detailed scrutiny which focuses on its business model and value proposition, the quality of its management and earnings, its balance sheet strength, and its cash generating ability.

#### Industry Verification Test

The Manager is of the view that in-depth industry knowledge and business expertise are the key drivers for any company. Accordingly, if a stock passes the "stock selection criteria test", it will then be subjected to verification by industry experts\* who can usually add deep and valuable insights into the Manager's assumptions with regard to the stocks' potential.

\*Note:

*"industry experts" are people with the relevant industry knowledge or expertise, considered by the Manager to be able to provide critical insights into the industry within which the Manager may seek to invest. For example, people who have known specific skill and experience within an industry and long-term members of trade organizations (relevant to the company which stocks the Manager intends to invest in).*

#### Valuation

Whilst the Manager seeks to identify and invest in stocks of companies which are expected to generate a reasonable return on equity, and have passed the two tests noted above, the Manager will not invest in stocks of those companies which compromise the Manager's view on their "true" (or intrinsic) value. The Manager will use its internal valuation techniques (such as "discounted cash flow" and "relative valuation") to determine the "true" value of the stock.

The Manager when using its "buy / sell" discipline, will seek to invest in a stock if it believes that the stock is undervalued. If a particular stock held by the Fund becomes overvalued, the Manager will sell the stock.

#### Portfolio Construction and Management

The Manager will construct the Fund's portfolio based on the prevailing (and changing) levels of risk accumulation and concentration as the Manager seeks to capture targeted returns. The Fund's portfolio will be built (one stock at a time) and managed with due regard to both "upside" and "downside" risk potential. This approach aims to create a diversification strategy which maximises the Manager's view on the portfolio's risk / return potential.

#### Temporary Defensive Measures

The Manager may take a temporary defensive position during adverse market conditions. In times of extreme market volatility and/or when market valuation is at a level considered unsustainable, the Fund will judiciously scale back its equity exposure below its normal operating range of 70% to 99% of the Fund's NAV. During such times, the Manager will invest in investments which the Manager considers may better preserve the value of the Fund (for example, money market instruments) although not necessarily meeting entirely the growth objective of the Fund. For the avoidance of doubt, please note that this is not a capital guaranteed or capital protected fund.

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

<p><b>Asset Allocation</b></p>	<p><b>Equities and equity related securities allocation:</b></p> <ul style="list-style-type: none"> <li>• Minimum: 70% of the Fund's NAV</li> <li>• Maximum: 99% of the Fund's NAV</li> </ul> <p><b>Deposits and money market instruments allocation:</b></p> <ul style="list-style-type: none"> <li>• Minimum: 1% of the Fund's NAV</li> <li>• Maximum: 30% of the Fund's NAV</li> </ul>
<p><b>Risk Management Strategies</b></p>	<p>Portfolio risk management is central to the Manager's investment process. Portfolio risk management can therefore include the application of policies, procedures and practices which continually seeks to identify, analyse, assess, control and mitigate unacceptable risk as it accumulates and/or concentrates within a portfolio. Accordingly, the portfolio of the Fund is subjected to numerous risk management techniques including stock exposure limits (company, sector, country etc), pre-determined stock liquidity levels and risk budgets, and clear "buy / sell" and "stop loss" disciplines.</p>
<p><b>Distribution Policy</b></p>	<p>As the objective of the Fund is to provide capital appreciation, distribution of income, if any, will be incidental.</p>
<p><b>Performance Benchmark</b></p>	<p>The performance benchmark is 8% growth in NAV per annum (compounded*) over 5 years.</p> <p><i>Please note that this is <b>not</b> a guaranteed return, but a benchmark against which the performance of the Fund may be measured. The Fund may or may not achieve the compounded return* of 8% of the NAV per annum but targets to achieve this growth over the long-term.</i></p> <p>*The following is a brief explanation on "compounded return":</p> <p>Compounded return is the rate of return, usually expressed as a percentage that represents the cumulative effect that a series of gains or losses have on an original amount of capital over a period of time. Compound returns are usually expressed in annual terms, meaning that the percentage number that is reported represents the annualized rate at which capital has compounded over time.</p> <p>For example, if an investment fund claims to have produced a 8% annual compound return over the past five years, this means that at the end of its fifth year, the fund's capital has grown to a size equal to what it would be if the funds on hand at the beginning of each year had earned exactly 8% by the end of each year.</p> <p>In other words, suppose you started with an initial investment of RM1,000. If you multiply RM1,000 by 1.08 five times, you will end up with about RM1,469. If an investment of RM1,000 ended up being worth RM1,469 by the end of five years, the investment could be said to have generated a 8% annual compound return over that five-year period.</p> <p>However, this <b>does not mean</b> that the investment actually appreciated by 8% during each of the five years. Any pattern of growth that led to a final value of RM1,469 after five years would equate to a 8% annualized return. Suppose the investment earned nothing for the first four years, and then earned RM469 in its last year (a 46.9% return for the year). This would still equate to a 8% annual compound return over the five-year measurement period, since the final amount is still equal to what the RM1,000 would have grown to if it had appreciated by a steady 8% each year.</p>

### 3.6 Kenanga Islamic Fund (KIF)

<b>Fund Category</b>	Equity (Islamic)
<b>Fund Type</b>	Growth
<b>Launch Date</b>	15 August 2002
<b>Investment Objective</b>	<p>KIF aims to achieve steady capital growth and income distribution (incidental) over the medium to long-term period by investing in a diversified portfolio in accordance with accepted Shariah principles.</p> <p><i>Any material changes to the investment objective of the Fund would require the Unit Holders' approval.</i></p>
<b>Investment Policy and Strategy</b>	<p>KIF seeks to maximise total returns by providing investors with a combination of capital appreciation and income distribution, if any, while reducing risk through diversified investments in Shariah-compliant equities which are broadly summarised as follows:</p> <ol style="list-style-type: none"> <li>1. to invest in any combination of Shariah-compliant equity and Shariah-compliant equity-related securities; and</li> <li>2. to invest in Shariah-compliant securities, which are readily marketable, although a proportion of KIF may consist of investments in Shariah-compliant equities of smaller quoted companies.</li> </ol> <p>In selecting investments, emphasis is placed on prospects for significant growth in the long-term and in particular, companies which have strong fundamentals and sound management.</p> <p>These give opportunities for investors to opt for capital gains and income in accordance with Shariah requirements.</p> <p>The investment committee will work closely with the appointed Shariah Adviser to ensure that the investments of the Fund are in compliance with Shariah requirements.</p> <p>The Fund is managed on an active bottom-up growth strategy, and adopts a moderate trading strategy in line with the Fund's objective.</p> <p>Asset allocation is actively managed to commensurate with the expected risk/reward ratio of the market. The minimum percentage of investment in Shariah-compliant equities is at least 70% of the NAV at any time.</p> <p>We adopt an active investment management approach that is not a 'frequent-trading' strategy, however the frequency of its trading strategy will very much determine by the prevailing market opportunities.</p> <p><b><u>Types and Characteristics Of Instruments</u></b></p> <p>The Fund invests in growth Shariah-compliant securities irrespective of market capitalisation, however, smaller market capitalised companies may run higher liquidity risk than normal.</p> <p><b><u>Temporary Defensive Measures</u></b></p> <p>These can be undertaken upon consultation with the investment committee and can include high level of cash and/or sukuk over Shariah-compliant equities. The cash will be place-out into Islamic money market instruments and/or Islamic deposits.</p>
<b>Asset Allocation</b>	<ul style="list-style-type: none"> <li>• 70% - 98% of the Fund's NAV - Shariah-compliant equities &amp; Shariah-compliant equity-related securities</li> <li>• Minimum 2% of the Fund's NAV - Islamic liquid assets</li> </ul>
<b>Risk Management Strategies</b>	We use active asset allocation and Shariah-compliant securities volatility to control risk.

### 3.8 Kenanga Balanced Fund (KBF)

<b>Fund Category</b>	Balanced
<b>Fund Type</b>	Growth and Income
<b>Launch Date</b>	23 May 2001
<b>Investment Objective</b>	<p>KBF aims to provide a portfolio of investments with lower risk and lower volatility for investors.</p> <p><i>Any material changes to the investment objective of the Fund would require the Unit Holders' approval.</i></p>
<b>Investment Policy and Strategy</b>	<p>KBF seeks to maximise total returns by providing investors with a combination of capital appreciation and income distribution, if any, while reducing risk through diversified investments in equities and fixed income securities which are broadly summarised as follows:</p> <ol style="list-style-type: none"> <li>1. to invest in a balanced portfolio of equity and equity-related securities and fixed income securities;</li> <li>2. to invest in securities which are readily marketable, although a proportion of the Fund may consist of investments in equities and bonds of smaller quoted companies; and</li> <li>3. to invest in futures market for hedging purposes only.</li> </ol> <p>In selecting investments, emphasis is placed on prospects for significant growth in the long-term and in particular, companies which have strong fundamentals and sound management.</p> <p>The Fund is managed on an active bottom-up strategy.</p> <p>Asset allocation is actively managed to commensurate with expected risk/reward ratio for the market.</p> <p>We adopt an active investment management approach that is not a 'frequent-trading' strategy, however the frequency of its trading strategy will very much determine by the prevailing market opportunities.</p> <p><b><u>Types and Characteristics Of Instruments</u></b></p> <p>The Fund's investments focus on growth stocks with a reasonable dividend yield.</p> <p><b><u>Temporary Defensive Measures</u></b></p> <p>These can be undertaken upon consultation with the investment committee and can include high level of cash and/or fixed income securities over equities. The cash will be place-out into money market instruments and/or deposits.</p>
<b>Asset Allocation</b>	<ul style="list-style-type: none"> <li>• Maximum 60% of the Fund's NAV - Equities and equity-related securities</li> <li>• Maximum 40% of the Fund's NAV - Fixed income securities</li> <li>• Minimum 2% of the Fund's NAV - Liquid assets</li> </ul>
<b>Risk Management Strategies</b>	We use active asset allocation and stock volatility to control risk. For fixed income securities, we monitor the credit risk and duration of the portfolio to ensure that we are positioned correctly.
<b>Distribution Policy</b>	The Fund aims to pay a regular distribution annually, where possible.

**3.10 Kenanga Asia Pacific Income Fund (KAPIF)**

<b>Fund Category</b>	Fixed Income
<b>Fund Type</b>	Income
<b>Launch Date</b>	12 July 2016
<b>Investment Objective</b>	<p>The Fund aims to provide investors with regular income by investing into fixed income securities, equities and equity related securities of companies in the Asia Pacific region.</p> <p><i>Any material changes to the investment objective of the Fund would require the Unit Holders' approval.</i></p>
<b>Investment Policy and Strategy</b>	<p>The Fund seeks to achieve its investment objective by investing in a portfolio of fixed income securities, equities and equity related securities* of companies in the Asia Pacific region.</p> <p>* "Equity related securities" refers to warrants, convertible loan stocks, transferable subscription rights and depository receipts.</p> <p>The countries that the Fund may invest in will include, but are not limited to, Malaysia, Singapore, Indonesia, Thailand, Philippines, India, Hong Kong and China (via the Hong Kong Stock Exchange for equities and equity related securities), Japan, Korea, Taiwan, Australia and Vietnam.</p> <p>To provide income, a minimum of 70% of the Fund's NAV will be invested in fixed income securities. The Fund's investments in fixed income securities will depend on economic growth, interest rate trends and market liquidity conditions.</p> <p>To manage the credit risks of the fixed income securities, the Fund will rely on credit analysis and focus on fixed income securities issued by companies with sound financial position. The Fund's fixed income securities must have a minimum credit rating of A3 and/or P2 by RAM or equivalent rating by MARC, or with credit rating of at least "BBB-" by Standard &amp; Poor's ("S&amp;P") or equivalent rating by Moody's or Fitch Ratings ("Fitch") at the point of purchase. In the event the credit rating of the fixed income securities is downgraded below A3 or P2 by RAM or equivalent rating by MARC, or with credit rating below "BBB-" by S&amp;P or equivalent rating by Moody's or Fitch, the Manager will take into consideration factors which include trading liquidity and availability of market bids at prevailing market valuations before deciding on the manner and time frame of divestment.</p> <p>The Fund can invest up to 30% of its NAV in equities and equity related securities which offer consistent dividend yield. In identifying such companies, the Fund relies on fundamental research where the financial health, industry prospects, management quality and past track records of the companies are considered.</p> <p>Depending on the market conditions at the time and the Manager's views relative to the market, the Manager may consider increasing or decreasing the amount of portfolio risks to be taken. However, these portfolio adjustments shall be done on an opportunistic manner, i.e. only when the rewards adequately compensate for the additional risks taken, rather than being a frequent-trading strategy.</p> <p>The base currency of the Fund is in Malaysian Ringgit and as the Fund's investments in the countries within the Asia Pacific region will be denominated in different currencies, the Manager may hedge the Fund's exposure to foreign exchange fluctuations. The hedging can be done through derivatives instruments such as but not limited to foreign exchange forward contracts. The Fund will limit the use of derivatives to hedge for currency movements only.</p> <p>We adopt an active investment management approach that is not a 'frequent-trading' strategy, however the frequency of its trading strategy will very much determine by the prevailing market opportunities.</p> <p><b><u>Temporary Defensive Measures</u></b></p> <p>In adverse market conditions, the Manager may take temporary defensive positions that may be inconsistent with the Fund's strategy. In this regard, the Fund may allocate all of its holding into other asset class such as deposits with financial institutions or money market instruments which may result in the Fund underperforming the benchmark. The defensive positions may be adopted up to such time as the Manager considers appropriate in consultation with the Trustee.</p>

<b>Risk Management Strategies</b>	<p>Portfolio risk management is central to the Manager's investment process. Portfolio risk management can therefore include the application of policies, procedures and practices which continually seek to identify, analyse, assess, control and mitigate unacceptable risk as it accumulates and/or concentrates within a portfolio. Accordingly, for fixed income securities, the Manger adopts an active management by conducting research on macro fundamentals, market valuations, sector outlook, company financial position and valuation to mitigate investment risks. As for the equities and equity related securities, the Manager applies numerous risk management techniques including stock exposure limits (company, sector, country etc), pre-determined stock liquidity levels, stock selection process and "stop loss" disciplines.</p>

### 3.11 Kenanga Bond Fund (KBNF)

<b>Fund Category</b>	Fixed Income
<b>Fund Type</b>	Income
<b>Launch Date</b>	15 August 2002
<b>Investment Objective</b>	<p>KBNF aims to provide investors with a steady income stream over the medium to long-term period through investments primarily in fixed income instruments.</p> <p><i>Any material changes to the investment objective of the Fund would require the Unit Holders' approval.</i></p>
<b>Investment Policy and Strategy</b>	<p>KBNF will invest in a diversified portfolio consisting principally of fixed income securities and other permissible investments.</p> <p>The Fund aims to optimize returns through active portfolio management and market positioning in the fixed income market. This includes investments in both sovereign and corporate bonds.</p> <p>Both strategic and tactical asset allocation are employed actively, based on the derived short and long-term fixed income market. Nevertheless, the Fund will maintain a minimum 70% invested in fixed income instruments at all times.</p> <p>We adopt an active investment management approach that is not a 'frequent-trading' strategy, however the frequency of its trading strategy will very much determine by the prevailing market opportunities.</p> <p><b><u>Types and Characteristics Of Instruments</u></b></p> <p>Fixed income instruments usually provide steady income stream from their coupon payments although their market value may fluctuate. Risks involved in investing in fixed income securities include market risk, interest rate risk, credit risk and reinvestment risk.</p> <p><b><u>Temporary Defensive Measures</u></b></p> <p>These can be undertaken upon consultation with the investment committee and can include high level of cash over fixed income instruments. The cash will be place-out into money market instruments and/or deposits.</p>
<b>Asset Allocation</b>	<ul style="list-style-type: none"> <li>• 70% - 98% of the Fund's NAV - Fixed income instruments</li> <li>• Minimum 2% of the Fund's NAV - Liquid assets</li> </ul>
<b>Risk Management Strategies</b>	Active risk management is employed through the pre-determined investment process that seeks to mitigate credit risk, while active fixed income management strategies are employed to mitigate duration risk in relation to our prevailing market outlook.
<b>Distribution Policy</b>	Subject to the availability of income, the Fund will distribute income annually.
<b>Performance Benchmark</b>	<p>Maybank 12-months fixed deposit rate</p> <p>(Information on performance benchmark can be obtained from <a href="http://www.maybank2u.com.my">www.maybank2u.com.my</a>).</p>

### 3.12 Kenanga Cash Plus Fund (KCPF)

<b>Fund Category</b>	Fixed Income
<b>Fund Type</b>	Income
<b>Launch Date</b>	26 October 2006
<b>Investment Objective</b>	<p>The Fund aims to provide investors a regular stream of income through investments in short to medium-term fixed income instruments with high level of liquidity<sup>^</sup>.</p> <p><sup>^</sup> <i>High level of liquidity refers to fixed income instruments that can be sold off easily.</i></p> <p><i>Any material changes to the investment objective of the Fund would require the Unit Holders' approval.</i></p>
<b>Investment Policy and Strategy</b>	<p>To achieve the objective of the Fund, it will invest in high quality short to medium-term fixed income instruments with minimum credit ratings of A3 or P2 (by RAM) or equivalent rating by other recognized rating agencies.</p> <p>We adopt an active investment management process to manage credit risks, the prevailing interest rate environment and anticipated redemptions by Unit Holders.</p> <p>Investment in this Fund is not the same as placing funds in a deposit with a financial institution. There are risks involved and investors should rely on their own evaluation to assess the merits and risks when investing in the Fund.</p> <p>The investment in the Fund is not capital guaranteed. However, the risks of capital loss are considered low as the Fund would invest in low risk assets as stated under investment strategy above. In addition, the short weighted average maturity of less than 365 days would also minimize the risks from interest rate movements, hence further reducing the risks of capital loss.</p> <p>Furthermore we also manage the portfolio risks amongst others, by:-</p> <ul style="list-style-type: none"> <li>• Adhering to the Fund's investment objective and investment restrictions and limits;</li> <li>• Carrying out robust credit analysis for investment decision making;</li> <li>• Daily monitoring of market liquidity;</li> <li>• Effective asset allocation;</li> <li>• Constant reporting of investment matters to the investment committee and senior management.</li> </ul> <p>We adopt an active investment management approach that is not a 'frequent-trading' strategy, however the frequency of its trading strategy will very much determine by the prevailing market opportunities.</p> <p><b><u>Temporary Defensive Measures</u></b></p> <p>We may, in compliance with the applicable investment limits and restrictions imposed, temporarily adopt a more defensive attitude by holding more cash in the portfolio when we believe that the market or the economy are experiencing excessive volatility, a persistent general decline or other negative conditions.</p>
<b>Asset Allocation</b>	<ul style="list-style-type: none"> <li>• Up to 50% of the Fund's NAV – Fixed income instruments</li> <li>• Minimum 50% of the Fund's NAV – Liquid assets</li> </ul>

<b>Risk Management Strategies</b>	<p>The Fund employs strategies such as overall portfolio duration and yield curve positioning to deal with market and reinvestment risks. Fixed income strategies employed can translate into a laddered, barbell or bullet portfolios. For investments in instruments with credit rating, a bottom-up approach in selecting corporate issuers in the portfolio and the selection of best-priced instruments within a given credit rating can improve the performance of a credit portfolio. Should the rating of the corporate issuers fall below the minimum rating of "investment grade" i.e. rated at least BBB- by RAM or equivalent rating by MARC or other rating agencies, we will try to dispose of the instruments to the market, subject to pricing and liquidity of the instruments. We will follow-up closely the development of the credit issue.</p> <p>The Fund's internal controls include asset allocation strategies to limit exposures in a single asset class. The Fund also imposes single-issuer limits to restrict over-investments in a single or group of companies i.e. issuer risks. Portfolio turnover and dealing limits control churning and over-trading with trade-counter parties. Functionally, investment management is separated from the trade processing and compliance units so that investments limits can be independently monitored and reported.</p>
<b>Distribution Policy</b>	<p>Subject to the availability of income, the Fund will distribute income on a monthly basis.</p>

### Choosing the investments that suit you

Kenanga OneAnswer™ may be tailored to your needs. You may choose from 8 different investments funds. Each Fund has different investment philosophies and performance objectives, ranging from conservative to a strong growth-oriented approach. Kenanga OneAnswer™ allows you to select, in any proportion, any number of those investments to implement your investment strategy.

### Managing risk and return

Before investing, you need to determine what level of risk is appropriate for you. Your savings are important and should be managed carefully to meet your financial goals. There is generally a relationship between the risk associated with different investments and their potential returns.

Investments earning higher returns usually carry higher risk and their value may rise or fall significantly and returns may be more volatile. More stable investments, such as bonds/sukuk, generally earn relatively lower returns, but their value and returns are less likely to fluctuate significantly. Each type of investment generally has a different set of risk and return features.

The risk/ return relationship is a trade-off as illustrated in Figure 1. The price of higher returns is the likelihood that your returns will fluctuate over time and the greater possibility that you could lose money. The cost of lower risk might be that your returns do not provide the money you need to meet your long-term financial goals.

An important part of the relationship with your adviser is working out your own risk/return profile, to determine how much risk is appropriate for you in the context of your investment objectives and circumstances.

Establishing your profile is an important step in selecting the investments that suit your needs. Accordingly, we have developed and suggested model portfolios that may provide you with a total portfolio solution that is suitable to your particular profile and circumstances.

**3.16 Kenanga Blue Chip Fund (KBCF)**

<b>Kenanga OneAnswer™</b>	
<b>Fund Category</b>	Equity
<b>Fund Type</b>	Growth & Income
<b>Launch Date</b>	23 April 2004
<b>Investment Objective</b>	<p>The Fund aims to achieve long-term capital growth through investments in companies that have relatively larger market capitalization<sup>^</sup>.</p> <p><sup>^</sup> <i>Relatively larger market capitalization refers to companies with market capitalization of more than RM 4 billion at the point of purchase.</i></p> <p><i>Any material changes to the investment objective of the Fund would require the Unit Holders' approval.</i></p>
<b>Investment Policy and Strategy</b>	<p>The Fund will construct a diversified investment portfolio that consists of fundamentally sound companies that have large market capitalization<sup>^</sup> and are dividends paying. The Fund may invest up to 98% of its NAV in such companies. These companies are generally referred to as 'blue chip' companies.</p> <p><sup>^</sup> <i>large market capitalization refers to companies with market capitalization of more than RM 4 billion at the point of purchase.</i></p> <p>The strategy begins with a thorough macroeconomic analysis and determining the investable universe of stocks for the Fund. The research is based on internal fundamental research, company contacts and visits, external research, databases and quantitative support. Finally, portfolio is constructed using bottom-up analysis based on the level of conviction formed for individual stocks.</p> <p>The companies are initially evaluated based on a combination of growth and value parameters. The more favorable stocks are subject to thorough fundamental analysis including their dividend payout, yields and sustainability. The best companies are then chosen from each sector. The final portfolio is determined taking into consideration the relative attractiveness of each sector.</p> <p>We employ 'Price-for-Growth' as a global standard to equity investments. 'Price for Growth' is based on the belief that earnings growth drives stock returns. The strategy focuses on the analysis of the earnings and cash flow potential of individual companies using a bottom-up fundamental approach. The objective is to find underpriced earnings growth in the market by making an assessment of what a reasonable price is for the earnings growth that companies offer. The Fund believes that there is a trade-off between the desire for good earnings growth and the amount paid for that growth.</p> <p>In addition to the 'Price-for-Growth' strategy, the Fund also evaluates the dividend policy, payment and dividend yield relative to its price. Overall the investments are in companies that offer good medium-term earnings growth, sustainable dividend yield and are inexpensively priced.</p> <p>We adopt an active investment management approach that is not a 'frequent-trading' strategy, however the frequency of its trading strategy will very much determine by the prevailing market opportunities.</p> <p><b><u>Temporary Defensive Measures</u></b></p> <p>We may, in compliance with the applicable investment limits and restrictions imposed, temporarily adopt a more defensive attitude by holding more cash in the portfolio when we believe that the market or the economy is experiencing excessive volatility, a persistent general decline or other negative conditions.</p>
<b>Asset Allocation</b>	<ul style="list-style-type: none"> <li>• 50% to 98% of the Fund's NAV – Equities</li> <li>• 2% to 50% of the Fund's NAV – Fixed income securities/Liquid assets</li> </ul>

<p><b>Risk Management Strategies</b></p>	<p>An active investment process is a dynamic mix of market and corporate earnings and market and stock valuation. Any one or a combination of the factors may rapidly change: stocks may be bought or sold as and when the factors warrant it. At the same time, the active investment management strategy also helps in mitigating risks associated with equity investing including market, stock-specific and liquidity risks.</p> <p>Risks associated with investing in this Fund i.e. market, stock-specific and liquidity risks are controlled to some extent by making adjustments to its asset allocation and/or sector and stock weightings, based on the investment outlook prevailing at that time. The Fund also imposes single-issuer limits to restrict over-investment in a single or group of companies i.e. stock-specific risk and to ensure diversification.</p>
<p><b>Distribution Policy</b></p>	<p>Subject to the availability of income, the Fund will distribute income on an annual basis.</p>

<b>Kenanga OneAnswer™</b>	
<b>Fund Category</b>	Equity
<b>Fund Type</b>	Growth
<b>Launch Date</b>	23 April 2004
<b>Investment Objective</b>	<p>The Fund aims to achieve consistent capital appreciation over the long-term by primarily investing in relatively smaller capitalized companies<sup>^</sup> with good growth prospects<sup>1</sup>.</p> <p><sup>^</sup> <i>Relatively smaller capitalized companies refers to companies with market capitalization of less than RM4 billion at the point of purchase.</i></p> <p><sup>1</sup> <i>Good growth prospects refers to companies with higher earnings growth than the market average.</i></p> <p><i>Any material changes to the investment objective of the Fund would require the Unit Holders' approval.</i></p>
<b>Investment Policy and Strategy</b>	<p>The Fund is an equity growth fund that is actively managed based on both quantitative and qualitative disciplines. Its strategy is to invest in companies<sup>#</sup> that are likely to yield higher earnings growth than the market average.</p> <p>The Fund adopts a theme-based approach, defined as a growth trend driven by innovation or imbalances and changes in the economy. These themes play out over the medium to longer term and cannot be corrected or fulfilled in the short term.</p> <p>The Fund's unique theme-based approach could be summarized as a 4-step process:</p> <ul style="list-style-type: none"> <li>• Identify – Identifying themes by trends;</li> <li>• Specify – Specifying sectors making up the trend;</li> <li>• Quantify – Establishing potential size of market and growth;</li> <li>• Classify – Selecting the stocks related and grouping them.</li> </ul> <p>Thus the theme-based approach is able to capture the above average growth prospect which is driven and sustained by the identified themes.</p> <p>The investment process for the Fund is designed to identify undervalued quality growth stocks which are just about to embark on an aggressive growth phase.</p> <p>Investment process is characterized by a well-designed balance of top down and bottom up decision making taking the specifics of the different sectors into account. Stocks are evaluated in a disciplined manner carefully balancing business outlook, valuations, financial performance and management quality. The resulting portfolio holdings typically have above average growth potential and solid financials.</p> <p>Risks associated with investment in this Fund are mitigated by diversification among the sectors and securities held. The active management style and fundamental in depth research incorporated into the Fund's investment process also help to mitigate investment risks i.e. market, stock-specific and liquidity risks.</p> <p><sup>#</sup> <i>The Fund will invest in companies with market capitalization of less than RM4 billion at the point of purchase.</i></p> <p>We adopt an active investment management approach that is not a 'frequent-trading' strategy, however the frequency of its trading strategy will very much determine by the prevailing market opportunities.</p>

The resulting portfolio holdings typically have above average growth potential and solid financials.</p> <p>Risks associated with Shariah-compliant equity investment in this Fund are mitigated by diversification among the sectors and Shariah-compliant securities held. The active management style and fundamental in depth research incorporated into the Fund's investment process also help to mitigate investment risks i.e. market, stock-specific and liquidity risks.</p> <p>We adopt an active investment management approach that is not a 'frequent-trading' strategy, however the frequency of its trading strategy will very much determine by the prevailing market opportunities.</p> <p><b><u>Temporary Defensive Measures</u></b></p> <p>We may, in compliance with the applicable investment limits and restrictions imposed, temporarily adopt a more defensive attitude by holding more cash in the portfolio when we believe that the market or the economy is experiencing excessive volatility, a persistent general decline or other negative conditions.</p>
<b>Asset Allocation</b>	<ul style="list-style-type: none"> <li>• 70% to 98% of the Fund's NAV – Shariah-compliant equities</li> <li>• 2% to 30% of the Fund's NAV – Sukuk/ Islamic liquid assets</li> </ul>

**3.19 Kenanga Ekuiti Islam Fund (KEIF)**

<b>Kenanga OneAnswer™</b>	
<b>Fund Category</b>	Equity (Islamic)
<b>Fund Type</b>	Growth
<b>Launch Date</b>	23 April 2004
<b>Investment Objective</b>	<p>The Fund aims to achieve long-term capital growth through investment in Shariah-compliant securities.</p> <p><i>Any material changes to the investment objective of the Fund would require the Unit Holders' approval.</i></p>
<b>Investment Policy and Strategy</b>	<p>Investments are on Shariah-compliant securities i.e. equities that offer medium-term earnings growth and that are inexpensively priced<sup>^</sup>. Firstly, the strategy begins with a thorough macroeconomic analysis and determining the investable universe of securities for the Fund.</p> <p>The Fund employs the investment style known as 'price-for-growth' to invest in listed equities that are Shariah-compliant. Such securities are characterized by operations that comply with Shariah requirements and have strong financial and business track records. The Fund may invest up to 98% of its NAV in such companies.</p> <p>'Price for growth' is based on the belief that earnings growth drives stock returns. The strategy focuses on the analysis of the earnings and cash flow potential of individual companies using a bottom-up fundamental approach.</p> <p>The objective is to find underpriced earnings growth in the market by making an assessment of what a reasonable price is for the earnings growth that companies offer. The Fund believes that there is a trade-off between the desire for good earnings growth and the amount paid for that growth.</p> <p>Two key components are analyzed: 'earnings per share' growth, which is a measure of a company's growth potential; and 'price earnings ratio', which is a measure of relative value. Investments are on companies that offer good medium-term earnings growth and that are inexpensively priced.</p> <p>The strategy begins with a thorough macroeconomic analysis and determining the investable universe of Shariah-compliant securities for the Fund. The research is based on internal fundamental research, company contacts and visits, external research, databases and quantitative support. Finally, the portfolio is constructed using bottom-up analysis, based on the level of conviction formed for individual Shariah-compliant securities.</p> <p>We adopt an active investment management approach that is not a 'frequent-trading' strategy, however the frequency of its trading strategy will very much determine by the prevailing market opportunities.</p> <p><sup>^</sup> <i>Inexpensively priced refers to equities that have a lower price earnings ratio compared with the industry average.</i></p> <p><b><u>Temporary Defensive Measures</u></b></p> <p>We may, in compliance with the applicable investment limits and restrictions imposed, temporarily adopt a more defensive attitude by holding more cash in the portfolio when we believe that the market or the economy is experiencing excessive volatility, a persistent general decline or other negative conditions.</p>

**3.20 Kenanga Managed Growth Fund (KMGF)**

<b>Kenanga OneAnswer™</b>	
<b>Fund Category</b>	Balanced
<b>Fund Type</b>	Income & Growth
<b>Launch Date</b>	23 April 2004
<b>Investment Objective</b>	<p>The Fund aims to achieve long-term capital growth through diversified investments in equities and bonds.</p> <p><i>Any material changes to the investment objective of the Fund would require the Unit Holders' approval.</i></p>
<b>Investment Policy and Strategy</b>	<p>The Fund invests in a mixture of equities, bonds and money market instruments. The Fund engages active tactical allocation between asset classes with emphasis on managed growth and selects securities based on current earnings, growth prospects and potential for capital appreciation as well as income distribution. Tactical asset allocation between assets and sectors is determined by analyzing the economy, which influences the business cycle, and market factors.</p> <p>For stock investments, the Fund employs the 'price-for-growth' approach to stock selection and focuses primarily on large-capitalized companies that are dividends paying. Such companies are characterized by large-scale operations, strong financial and business track records, and are leaders in their respective fields. These companies are generally referred to as 'blue chip' companies.</p> <p>The Fund may also invest up to 60% of its NAV in bonds. The bond investment strategy utilizes macro-economic analysis to position the portfolio with respect to duration, convexity and yield curve shape. Value is added through the application of credit skills and interest rates anticipation.</p> <p>The strategy is based on the belief that fundamental economic and sector analysis drives long-term outperformance and that active management of credit risk can produce consistently superior results than those produced through passive management. Here, the Fund may take advantage of sector rotation, issue selection and relative value positioning.</p> <p>We adopt an active investment management approach that is not a 'frequent-trading' strategy, however the frequency of its trading strategy will very much determine by the prevailing market opportunities.</p> <p><b><u>Temporary Defensive Measures</u></b></p> <p>We may, in compliance with the applicable investment limits and restrictions imposed, temporarily adopt a more defensive attitude by holding more cash in the portfolio when we believe that the market or the economy is experiencing excessive volatility, a persistent general decline or other negative conditions.</p>
<b>Asset Allocation</b>	<ul style="list-style-type: none"> <li>• 40% to 60% of the Fund's NAV – Equities</li> <li>• 40% to 60% of the Fund's NAV – Bonds/ Liquid assets</li> </ul>
<b>Risk Management Strategies</b>	<p>We adopt an active investment management approach which also incorporates risk management strategy. Investment filters and fundamental research helps mitigate market, stock-specific, credit and interest rate risks. Active management of portfolio allows tactical positioning of the Fund which helps reduce market and other portfolio risks. Various bond strategies may be employed to maximize return and manage risks.</p>
<b>Distribution Policy</b>	<p>Subject to the availability of income, the Fund will distribute income on an annual basis.</p>

**3.21 Kenanga Diversified Fund (KDF)**

<b>Kenanga OneAnswer™</b>	
<b>Fund Category</b>	Mixed Asset
<b>Fund Type</b>	Income & Growth
<b>Launch Date</b>	23 April 2004
<b>Investment Objective</b>	<p>This Fund aims to provide investors capital appreciation with stability of income over a medium to long-term investment horizon from a diversified investment portfolio.</p> <p><i>Any material changes to the investment objective of the Fund would require the Unit Holders' approval.</i></p>
<b>Investment Policy and Strategy</b>	<p>The Fund's asset allocation includes a mixture of equity securities, fixed income securities and money market instruments. The maximum equity weighting is limited to 70% of the Fund's NAV. In times of actual or anticipated adverse market conditions, the equity exposure may be reduced. The Fund engages active tactical asset allocation between the asset classes which is determined by analyzing the economy, which influences the business cycle, and market factors.</p> <p>For equities investment, the Fund adopts an actively managed strategy and a disciplined investment process whereby thorough research is undertaken and stocks are analyzed utilizing a fundamental top down and bottom up investment process. Stocks are evaluated in a disciplined manner carefully balancing business outlook, valuations, financial performance and management quality. The Fund employs the "price for growth" approach for the equity investments. Typically, high portfolio turnover rates are generally not common to our investment strategy.</p> <p>For investment in fixed income securities, the investment strategy is diversifying investment holdings and spreading the maturity of bonds to ensure minimization of risks. The investment process begins with thorough macro-economic analysis. The analysis is used to position the portfolio with respect to duration, convexity and yield curve shape. The Fund adds value through the application of credit skills and interest rates anticipation, shifting duration, sector and credit exposures in the context of the expected economic and financial environment.</p> <p>On a bottom-up perspective, the Fund focuses on seeking adequate reward for any credit risks assumed. Here, the Fund may take advantage of sector rotation, issue selection and relative value positioning. The Fund emphasizes medium to long-term investment views and involves the application of relative value analysis to individual credits and industry sectors.</p> <p>We adopt an active investment management approach that is not a 'frequent-trading' strategy, however the frequency of its trading strategy will very much determine by the prevailing market opportunities.</p> <p><b><u>Temporary Defensive Measures</u></b></p> <p>We may, in compliance with the applicable investment limits and restrictions imposed, temporarily adopt a more defensive attitude by holding more cash in the portfolio when we believe that the market or the economy is experiencing excessive volatility, a persistent general decline or other negative conditions.</p>
<b>Asset Allocation</b>	<ul style="list-style-type: none"> <li>• 20% to 70% of the Fund's NAV – Equities</li> <li>• 30% to 80% of the Fund's NAV – Fixed income securities/ Liquid assets</li> </ul>

<p><b>Risk Management Strategies</b></p>	<p>We adopt an active investment management approach which also incorporates risk management strategy. Investment filters and fundamental research helps mitigate market, stock-specific, credit and interest rate risks. Active management of portfolio allows tactical positioning of the Fund which helps reduce market and other portfolio risks. Various bond strategies may be employed to maximize return and manage risks.</p> <p>Risks associated with investment in this Fund are mitigated by diversification among asset classes and securities held. Equities investment risks i.e. market, stock-specific and liquidity risks are managed via in-depth research while active management of the fixed income securities helps to mitigate credit, interest rates, counterparty and market risks.</p>

**3.22 Kenanga Income Plus Fund (KIPF)**

<b>Kenanga OneAnswer™</b>	
<b>Fund Category</b>	Bond
<b>Fund Type</b>	Income
<b>Launch Date</b>	23 April 2004
<b>Investment Objective</b>	<p>The Fund aims to provide investors with a regular income stream through investments in bonds and money market instruments.</p> <p><i>Any material changes to the investment objective of the Fund would require the Unit Holders' approval.</i></p>
<b>Investment Policy and Strategy</b>	<p>The Fund's strategy is based on the belief that fundamental economic and sector analysis drives long-term outperformance, and that active management of credit risk can produce consistently superior results than those produced through passive management.</p> <p>The investment process begins with thorough macro-economic analysis. The analysis is used to position the portfolio with respect to duration, convexity and yield curve shape.</p> <p>The Fund adds value through the application of credit skills and interest rates anticipation, shifting duration, sector and credit exposures in the context of the expected economic and financial environment.</p> <p>On a bottom-up perspective, the Fund focuses on seeking adequate reward for any credit risks assumed. Here, the Fund may take advantage of sector rotation, issue selection and relative value positioning.</p> <p>The Fund emphasizes medium to long-term investment views and involves the application of relative value analysis to individual credits and industry sectors.</p> <p>The Fund invests in securities that have a minimum rating of "investment grade" i.e. rated at least BBB3 by RAM or equivalent rating by MARC or other rating agencies.</p> <p>We adopt an active investment management approach that is not a 'frequent-trading' strategy, however the frequency of its trading strategy will very much determine by the prevailing market opportunities.</p> <p><b><u>Temporary Defensive Measures</u></b></p> <p>We may, in compliance with the applicable investment limits and restrictions imposed, temporarily adopt a more defensive attitude by holding more cash in the portfolio when we believe that the market or the economy is experiencing excessive volatility, a persistent general decline or other negative conditions.</p>
<b>Asset Allocation</b>	<ul style="list-style-type: none"> <li>• 50% to 98% of the Fund's NAV – Bonds</li> <li>• 2% to 50% of the Fund's NAV – Liquid assets</li> </ul>
<b>Risk Management Strategies</b>	<p>The Fund employs strategies such as overall portfolio duration and yield curve positioning to deal with market and reinvestment risks. Bond strategies employed can translate into a laddered, barbell or bullet portfolios. For investments in securities with credit ratings, a bottom-up approach in selecting corporate issuers in the portfolio and the selection of best-priced securities within a given credit rating can improve the performance of a credit portfolio. Should the rating of the corporate issuers fall below the minimum rating of "investment grade" i.e. rated at least BBB3 by RAM or equivalent rating by MARC or other rating agencies, we will try to dispose of the securities to the market, subject to pricing and liquidity of the securities. We will follow-up closely the development of the credit issue.</p> <p>The Fund's internal controls include asset allocation strategies to limit exposures in a single asset class. The Fund also imposes single-issuer limits to restrict over-investments in a single or group of companies i.e. issuer risks. Portfolio turnover and dealing limits control churning and over-trading with securities trade-counter parties. Functionally, investment management is separated from the trade processing and compliance units so that</p>

#### **4. RISK FACTORS**

##### **General Risks**

Whilst the Manager believes that the investment policy will be effective and that investment in unit trust funds may be rewarding, investors should be aware that there are risks associated with their investment in unit trust funds.

##### **a) Market Risk**

Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the fund's net asset value.

##### **b) Manager's Risk**

This risk refers to the day-to-day management of the fund by the manager which will impact the performance of the fund. For example, investment decisions undertaken by the manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the fund.

##### **c) Liquidity Risk**

Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If a fund holds assets that are illiquid, or are difficult to dispose of, the value of the fund will be negatively affected when it has to sell such assets at unfavourable prices.

##### **d) Inflation Risk**

This is the risk that investors' investment in the fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.

##### **e) Non-Compliance Risk**

This refers to the current and prospective risk to the unit trust fund and the investors' interest arising from non-compliance of regulations imposed by the Act and the Guidelines, deeds, prospectuses and/or manager's internal policies and procedures by the manager. Risk of non-compliance can lead to diminished reputation, reduced franchise value, limited business opportunities and reduced expansion potential for the company. Accordingly, non-compliance may affect the investor's investments by causing a fall in the value of the unit trust fund.

##### **f) Loan Financing Risk**

This risk occurs when investors take a loan/financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the loan repayments. In the event units are used as collateral, an investor may be required to top-up the investors' existing instalment if the prices of units fall below a certain level due to market conditions. Failing which, the units may be sold at a lower net asset value per unit as compared to the net asset value per unit at the point of purchase towards settling the loan.

Islamic unit trust fund's investors are advised to seek for Islamic financing to finance their investment.

**Equity and Equity-related Securities Risk**

As the investments of the Fund will be in equities/ Shariah-compliant equities and equity-related securities/ Shariah-compliant equity-related securities, other than warrants and convertible loan stocks, the Fund will be affected by equity risk. For risk relating to warrants and convertible loan stocks, please refer to the Warrants and Convertible Loan Stocks Risk. Generally, equity risk may arise in the following forms, i.e., equity risks related to external factors and equity risks related to company-specific factors. All of these related equity risks can adversely affect the prices of equities, which would negatively impact the performance of the Fund.

Equity risks related to external factors include economic, political or general market factors which impact equities generally. For example, adverse political developments may cause the economy of the country in which the Fund invests in to become unstable, which in turn affects the profitability of a company that operates in that country due to weakening of the economy.

Equity risks related to company-specific factors include how the companies in which the Fund invests are managed; the performance of any given company depends on the quality of its management. A company that has a competent management with the necessary experience and skill sets will contribute to the effectiveness of the operations of the company as indicated by such metrics as revenue growth and profitability. Company specific factors also include how the company is doing relative to its competitors or other companies in its industry or related industries.

These types of equity risks can work individually or in combination to negatively affect the value of equities/ Shariah-compliant equities and equity-related securities/ shariah-compliant equity-related securities held by the Fund.

**Currency Risk**

The Fund may be exposed to currency fluctuation risk as well as changes in foreign exchange regulations as the Fund may be invested in foreign currency or assets denominated in a foreign currency. There is a risk of potential price fluctuations in the value of foreign assets because of changing current exchange rates. If this occurs there is a possibility that the Unit price of the Fund may be adversely affected. Any gains or losses arising from the movement of the foreign currencies may therefore affect the value of investment as expressed in the base currency in addition to the capital gains or losses of such investment; which in turn will impact the investment value of the Fund. The Manager may manage this risk by hedging the foreign currency exposure; in this case, investors will not be able to enjoy any upside from the foreign currency appreciation.

**Country Risk**

Investment of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may be adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the net asset value of the Fund or prices of units to fall.

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

**Derivatives Risk**

The Funds may from time to time use derivatives for hedging. Derivatives are financial contracts whose value depend on, or are derived from, the value of an underlying asset, reference rate or index. Such assets may include shares, interest rates, currency exchange rates and stock indices. The use of derivatives may result in a lower NAV price. Some of the risks associated with derivatives are market risk, management risk, credit risk, liquidity risk and counterparty risk. While the hedging strategy will assist in mitigating the potential losses by the Fund, any potential gains from the hedging strategy will be capped as well.

**Settlement Risk**

As the Fund may invest in different countries, the securities markets of certain countries may lack efficiency and regulatory controls. The investments of the Fund in certain countries may be adversely affected by delays in, or refusal to grant relevant approvals for the repatriation of funds which may result in delay in realizing investments made by the Fund.

**Warrant and Convertible Loan Stock Risk**

The Fund may also invest in equity related securities such as warrants and convertible loan stocks. The price of warrants and convertible loan stocks are typically linked to the underlying stock. However, the price and performance of such warrants will generally fluctuate more than the underlying stocks because of the greater volatility of the warrants market. Generally, as the warrants have a limited life, they will depreciate in value as they approach their maturity date, assuming that all other factors remain unchanged. Warrants that are not exercised at maturity become worthless and negatively affect the NAV of the Fund. Convertible loan stocks must be converted to the underlying stock at a predetermined conversion ratio and conversion rate, and in the event the total costs of converting into underlying stock is higher than the market price of that the underlying stock, it will negatively affect the NAV of the Fund.

**Reclassification of Shariah Status Risk**

The risk that the currently held Shariah-compliant securities in the portfolio of Islamic Fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the SACSC, the Fund's Shariah Adviser or the Shariah boards of the relevant indices. If this occurs, the Manager will take the necessary steps to dispose of such securities. There may be opportunity loss to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant securities. The value of the Fund may also be adversely affected in the event of a disposal of Shariah non-compliant securities at a price lower than the investment cost. Please refer to additional information in relation to Islamic Funds in Section 5 for further details.

**Stock Specific Risk**

Prices of a particular Shariah-compliant securities/ stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such stock will adversely affect the Fund's net asset value.

**Currency Risk**

The Fund may be exposed to currency fluctuation risk as well as changes in foreign exchange regulations as the Fund may be invested in foreign currency or assets denominated in a foreign currency. There is a risk of potential price fluctuations in the value of foreign assets because of changing current exchange rates. If this occurs there is a possibility that the Unit price of the Fund may be adversely affected. Any gains or losses arising from the movement of the foreign currencies may therefore affect the value of investment as expressed in the base currency in addition to the capital gains or losses of such investment; which in turn will impact the investment value of the Fund. The Manager may manage this risk by hedging the foreign currency exposure; in this case, investors will not be able to enjoy any upside from the foreign currency appreciation.

**Country Risk**

Investment of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may be adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the net asset value of the Fund or prices of units to fall.

**Credit and Default Risk**

Credit risk relates to the creditworthiness of the issuers of the fixed income securities/sukuk or money market instruments/Islamic money market instruments (hereinafter referred as "investment") and their expected ability to make timely payment of interest/profit and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the investment. In the case of rated investment, this may lead to a credit downgrade. Default risk relates to the risk that an issuer of the investment either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.

**Interest Rate Risk**

Interest rate risk refers to the impact of interest rate changes on the valuation of a bond/sukuk or money market instruments/ Islamic money market instruments (hereinafter referred as "investment") portfolio. When interest rates rise, the investment prices will generally decline and this may lower the market value of the investment portfolio. The reverse may apply when interest rates fall. The risk will be mitigated via the management of the duration structure of the investment.

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

As for Islamic Funds, the interest rate is a general indicator that will have an impact on the management of the Funds regardless of whether it is an Islamic fund or otherwise. It does not in any way suggest that these Funds will invest in conventional financial instruments. All the investments carried out for the Islamic Funds are in accordance with Shariah requirements.

**Reinvestment Risk**

Reinvestment risk arises when an issuer of bonds/sukuk decides to exercise its right to pay principal on an obligation earlier than the expected maturity date, especially during times of declining interest rates. Consequently, the Fund may experience lower returns due to having to reinvest in lower yielding securities.

**Counterparty Risk**

Counterparty risk occurs when a financial institution that has entered into a securities trade defaults on its obligations under the agreement. The Fund may encounter Unit price volatility due to this risk arising.

**Derivatives Risk**

The Funds may from time to time use derivatives for hedging. Derivatives are financial contracts whose value depend on, or are derived from, the value of an underlying asset, reference rate or index. Such assets may include shares, interest rates, currency exchange rates and stock indices. The use of derivatives may result in a lower NAV price. Some of the risks associated with derivatives are market risk, management risk, credit risk, liquidity risk and counterparty risk. While the hedging strategy will assist in mitigating the potential losses by the Fund, any potential gains from the hedging strategy will be capped as well.

**Reclassification of Shariah Status Risk**

The risk that the currently held Shariah-compliant securities in the portfolio of Islamic Fund may be reclassified as Shariah non-compliant in the periodic review of the securities by the SACSC, the Fund's Shariah Adviser or the Shariah boards of the relevant indices. If this occurs, the Manager will take the necessary steps to dispose of such securities. There may be opportunity loss to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant securities. The value of the Fund may also be adversely affected in the event of a disposal of Shariah non-compliant securities at a price lower than the investment cost. Please refer to additional information in relation to Islamic Funds in Section 5 for further details.

**Credit and Default Risk**

Credit risk relates to the creditworthiness of the issuers of the fixed income securities/sukuk or money market instruments/Islamic money market instruments (hereinafter referred as “investment”) and their expected ability to make timely payment of interest/profit and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the investment. In the case of rated investment, this may lead to a credit downgrade. Default risk relates to the risk that an issuer of the investment either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the investment. This could adversely affect the value of the Fund.

**Interest Rate Risk**

Interest rate risk refers to the impact of interest rate changes on the valuation of a bond/sukuk or money market instruments/ Islamic money market instruments (hereinafter referred as “investment”) portfolio. When interest rates rise, the investment prices will generally decline and this may lower the market value of the investment portfolio. The reverse may apply when interest rates fall. The risk will be mitigated via the management of the duration structure of the investment.

As for Islamic Funds, the interest rate is a general indicator that will have an impact on the management of the Funds regardless of whether it is an Islamic fund or otherwise. It does not in any way suggest that these Funds will invest in conventional financial instruments. All the investments carried out for the Islamic Funds are in accordance with Shariah requirements.

Consequently, the Fund may experience lower returns due to having to reinvest in lower yielding securities.

**Counterparty Risk**

Counterparty risk occurs when a financial institution that has entered into a securities trade defaults on its obligations under the agreement. The Fund may encounter Unit price volatility due to this risk arising.

**Applicable only to KAPIF**

**Equity-Specific Risk**

The price of each individual equity that the Fund invests in may decline for a number of reasons such as the management performance, financial performance, financial position and reduced demand for the company’s goods and services. This risk is mitigated through portfolio diversification by investing in various companies across different industries or sectors.

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

**Warrant and Convertible Loan Stock Risk**

The Fund may also invest in equity related securities such as warrants and convertible loan stocks. The price of warrants and convertible loan stocks are typically linked to the underlying stock. However, the price and performance of such warrants will generally fluctuate more than the underlying stocks because of the greater volatility of the warrants market. Generally, as the warrants have a limited life, they will depreciate in value as they approach their maturity date, assuming that all other factors remain unchanged. Warrants that are not exercised at maturity become worthless and negatively affect the NAV of the Fund. Convertible loan stocks must be converted to the underlying stock at a predetermined conversion ratio and conversion rate, and in the event the total costs of converting into underlying stock is higher than the market price of that the underlying stock, it will negatively affect the NAV of the Fund.

**Currency Risk**

This risk is associated with investments denominated in currencies different from the base currency of the Fund. As the Fund is denominated in RM, investments in assets denominated in foreign currencies will cause the Fund to be exposed to currency risk. When foreign currencies move unfavourably against the RM, these investments may face currency loss, which will affect the NAV of the Fund, and consequently the price per Unit of the Fund. The Manager may mitigate this risk by hedging the foreign currency exposure. Although hedging may be used to mitigate this risk, hedging may limit any potential gain that might result from favourable currency fluctuations.

**Settlement Risk**

As the Fund may invest in different countries, the absence of organised securities markets as well as the underdeveloped state of the legal, banking and telecommunications systems in certain countries may raise concerns in relation to settlement, clearing and registration of transactions in securities. The investments of the Fund in certain countries may be adversely affected by delays in, or refusal to grant relevant approvals for the repatriation of funds which may affect the process of settlement of transactions.

**Country-Specific Risk**

Investments in certain markets may be restricted or controlled. In some countries, direct investments in securities may be prohibited and restricted due to regulatory requirements. For instance, the prior application or registration of an investment license or investor code is required in countries such as India, Korea, Taiwan and Vietnam before any investment can be made in these countries. As such, in the event that investments in these countries are undertaken, there may be a risk that such registration or license may be revoked or not renewed by the relevant authority. This may cause the Fund's investment in these countries to be frozen by the regulator of these countries and result in the investment for the Fund in these countries to be suspended. The Manager will constantly monitor to adhere to the relevant authority requirements in these countries and observe the developments in these countries where assets of the Fund are allocated. In addition, the Manager will employ a systematic investment process, which includes regular reviews, to manage and mitigate this risk.

## **5. ADDITIONAL INFORMATION IN RELATION TO ISLAMIC FUNDS**

### **1. Shariah Investment Guidelines**

The following matters are adopted by KIBB Shariah Committee in determining the Shariah status of investments of the Fund.

#### Investment in Malaysia

Shariah-compliant Equity:

Reference for investment in local securities is based on the list of Shariah-compliant securities issued by the SACSC twice yearly on the last Friday of May and November which is readily available at the SC's website.

However, for Initial Public Offering ("IPO") companies which the Shariah status have yet to be determined by the SACSC, KIBB Shariah Committee adopts the following analysis as a temporary basis in determining its Shariah status until the SACSC releases the Shariah status of the respective companies.

KIBB Shariah Committee adopts a two-tier quantitative approach, which applies the business activity benchmarks and the financial ratio benchmarks, in determining the Shariah status of the listed securities. Hence, the securities will be classified as Shariah-compliant if their business activities and financial ratios are within these benchmarks.

#### **a) Business Activity Benchmarks**

The contribution of Shariah non-compliant activities to the group revenue and group profit before taxation of the company will be computed and compared against the relevant business activity benchmarks as follows:

(i) The 5% benchmark would be applicable to the following business activities:

- Conventional banking;
- Conventional insurance;
- Gambling;
- Liquor and liquor-related activities;
- Pork and pork-related activities;
- Non-halal food and beverages;
- Shariah non-compliant entertainment;
- Interest income from conventional accounts and instruments (including interest income awarded arising from a court judgements or arbitrator);
- Dividends from Shariah non-compliant investment;
- Tobacco and tobacco-related activities; and
- Other activities deemed non-compliant according to Shariah.

For the above-mentioned business/activities, the contribution of Shariah non-compliant businesses/activities to the group revenue or group profit before taxation of the company must be less than 5%.

(ii) The 20% benchmark is applicable to the following businesses/activities:

- Share trading;
- Stockbroking business;
- Rental received from Shariah non-compliant activities; and
- Other activities deemed non-compliant according to Shariah.

For the above-mentioned business/activities, the contribution of Shariah non-compliant businesses/activities to the group revenue or group profit before taxation of the company must be less than 20%.

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

b) **Financial Ratio Benchmarks**

The financial ratios benchmarks, KIBB Shariah Committee takes into account the following:

**(i) Cash over total assets**

Cash will only include cash placed in conventional accounts and instruments, whereas cash placed in Islamic accounts and instruments will be excluded from the calculation.

**(ii) Debt over total assets**

Debt only includes interest-bearing debt whereas Islamic financing or sukuk is excluded from the calculation.

Each ratio, which is intended to measure *riba* and *riba*-based elements within a company's statements of financial position, must be less than 33%.

In addition to the above two-tier quantitative criteria, the KIBB Shariah Committee also takes into account the qualitative aspect which involves public perception or image of the company's activities from the perspective of Islamic teaching. Should any of the above deductions fail to meet the benchmarks, KIBB Shariah Committee will not accord Shariah-compliant status for the companies.

Sukuk and Islamic Money Market Instruments:

KIBB Shariah Committee will select any sukuk and/or Islamic money market instruments based on the data available at Bond Info Hub ([www.bondinfo.bnm.gov.my](http://www.bondinfo.bnm.gov.my)) and Fully Automated System For Issuing/Tendering (<https://fast.bnm.gov.my>).

**2. Cleansing Process for the Fund**

a) Wrong Investment

This refers to Shariah non-compliant investment made by the Target Fund. The said investment will be disposed of/withdrawn with immediate effect. In the event of the investment resulted in gain (through capital gain and/or dividend/profit), the gain is to be channelled to baitulmal or any other charitable bodies as advised by the Shariah Adviser. If the disposal of the investment resulted in losses to the Fund, the losses are to be borne by the fund manager.

b) Reclassification of Shariah Status of the Fund's Investment

Reclassification of Shariah status refers to securities which are reclassified as Shariah non-compliant by the SACSC, the Shariah Adviser or the Shariah Boards of the relevant Islamic indices. The said securities will be disposed soonest practical, once the total amount of dividends received and the market value held equals to the investment costs.

Any dividends received and capital gains arising from the disposal of the Shariah non-compliant securities made at the time of the announcement/review can be kept by the Fund. However, any dividends received and excess capital gains derived from the disposal after the announcement/review day at a market price that is higher than the closing price on the announcement day is to be channelled to baitulmal or any charitable bodies as advised by the Shariah Adviser.

**3. Zakat (tithe) for the Fund**

The Fund does not pay zakat on behalf of Muslim individuals and Islamic legal entities who are Investors of the Fund. Thus, Investors are advised to pay zakat on their own.

## **6. FEES, CHARGES AND EXPENSES**

### **6.1 FEES AND CHARGES DIRECTLY INCURRED**

#### **a) Sales Charge**

The sales charge is a fee levied on the purchase of Units of a Fund, and is used to pay for marketing, advertising and distribution expenses of the Fund. The fee is deducted upfront from the purchase amount, leaving only the net amount invested in a Fund.

The sales charge is calculated based on the Selling Price (which is the NAV per Unit) of the Funds as at the next valuation point after the application is received (“forward pricing”).

<b>Fund Name</b>	<b>Sales Charge per Unit imposed by IUTA/ UTC/ Agency/ the Manager</b>

Note:

*Investors who invest in any Funds through the EPF Members' Investment Scheme pay a lower sales charge which is 3% of the NAV per Unit (or such other maximum rate that may be allowed by the EPF from time to time). Funds approved under the EPF Members Investment Scheme are subject to change. Investors may contact the Manager for the list of funds.*

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

*The Manager may waive or reduce the sales charge imposed. Investors may also negotiate for a lower sales charge with their preferred distributor, subject to the respective channels' qualifying criterion.*

*All fees and charges payable to the Manager and the Trustee are subject to the goods and services tax/ sales and services tax/ other taxes of similar nature as may be imposed by the government or other authorities from time to time.*

Illustration on how the sales charge is calculated

The NAV per Unit of the Fund is the Selling Price. Assuming the Manager is charging a sales charge of 5.50% of the Selling Price for all transactions:

Investment amount	RM10,000
NAV per Unit	RM0.5000
Sales charge	5.50% of the Selling Price

Amount to be invested in a Fund:  $RM10,000 / (1 + 0.055)$   
 $= RM10,000 / (1.055)$   
 $= RM9,478.67$

Units issued to you:  $RM9,478.67 / RM0.5000 = 18,957.34$  Units

Sales charge to be paid by you:  $RM10,000 - RM9,478.67 = RM521.33$

**b) Repurchase Charge**

There is no repurchase charge imposed by the Manager on the repurchase request.

Illustration on how the repurchase charge is calculated

Units intended for redemption	20,000 units
Repurchase charge	Nil
NAV per Unit	RM0.5000

If you decide to redeem 20,000 units, the Units to be redeemed shall be calculated as follows:

Repurchase amount (20,000 units x RM0.5000)	= RM10,000
Less: Repurchase charge (nil)	= Nil
Net amount payable to you	= RM10,000

**c) Transfer Fee**

There is no transfer fee imposed by the Manager on the transfer request.

**d) Switching Fee**

There is no switching fee imposed by the Manager on the switching request.

## **7. TRANSACTION INFORMATION**

### **7.1 BASES FOR VALUATION AND VALUATION FOR THE FUND**

#### **Bases for Valuation**

In undertaking any of its investments, the Manager will ensure that all the assets of the Fund will be valued appropriately, i.e. at fair market value and at all times in compliance with the Guidelines.

<b>Investment Instruments</b>	<b>Valuation Basis</b>
<b>Securities or Shariah-compliant Securities Listed on Any Exchange</b>	<p>Market price</p> <p>However, if:</p> <p>a valuation based on the market price does not represent the fair value of the securities or Shariah-compliant securities, e.g. during abnormal market conditions; or</p> <p>no market price is available, including in the event of a suspension in the quotation of the securities or Shariah-compliant securities for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee,</p> <p>then the securities or Shariah-compliant securities should be valued at fair value, as determined in good faith by the Manager based on the methods or bases approved by the Trustee after appropriate technical consultation.</p>
<b>Securities or Shariah-compliant Securities Not Traded In or Under the Rules of an Eligible Market</b>	Fair value should be determined on methods or bases which have been verified by the auditors of the Fund and approved by the Trustee.
<b>Fixed Income Securities or Debentures or Sukuk</b>	Unquoted debt securities or sukuk denominated in Ringgit Malaysia will be valued on a daily basis based on fair value prices quoted by a bond pricing agency (BPA) registered with the SC. If the Manager is of the view that the price quoted by the BPA for a specific bond or sukuk differs from the market price by more than 20 basis points, the Manager may use the market price provided that the Manager adheres to the requirements as stipulated in the Guidelines.
<b>Malaysian Currency Liquid Assets or Islamic Liquid Assets</b>	Nominal value.
<b>Foreign Currency Liquid Assets or Islamic Liquid Assets</b>	Same basis as Malaysian currency liquid assets or Islamic liquid assets of similar type, with such adaptations as are necessary.
<b>Financial Futures or Islamic Financial Futures</b>	Investments in financial futures or Islamic financial futures are valued at marked to market prices at the end of each trading day.
<b>Money Market Instruments or Islamic Money Market Instruments</b>	<p>Investments in conventional or Shariah-compliant financial instruments such as banker acceptance, Islamic accepted bills, Bank Negara monetary notes or Bank Negara monetary notes-<i>i</i>, negotiable certificate of deposits or Islamic negotiable instruments or other short-term financial instruments issued by government or government-related agencies are valued each day by reference to the value of such investments and the profits accrued thereon for the relevant period.</p> <p>For investments in commercial papers, valuation will be performed by reference to the fair value prices quoted by a BPA registered with the SC.</p>

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

<b>Collective Investment Scheme or Islamic Collective Investment Scheme</b>	Investments in unlisted collective investment schemes or Islamic collective investment schemes, the valuation will be based on the last published repurchase price.
<b>Financial Options or Islamic Financial Options</b>	Investments in financial options or Islamic financial options are valued at marked to market prices at the end of each trading day.
<b>Any Other Instruments or Shariah-compliant Instruments</b>	Fair value as determined in good faith by the Manager, on methods or bases which have been verified by the auditors of the Fund and approved by the Trustee.
<b>Derivatives or Islamic Derivatives</b>	Valuation of derivatives or Islamic derivatives is classified as financial assets and is measured at Fair Value through Profit and Loss, "FVTPL". The financial instruments are marked to market using valuation prices quoted by the derivatives or Islamic derivatives provider. The fair values of the financial assets are valued at least once a week. Any unrealized gains or losses comprise changes in fair value of the financial instruments are reported immediately on the statement of comprehensive income.

### **Valuation for the Fund**

The Fund must be valued at least once every Business Day. The Guidelines also requires a valuation of the Fund to be carried out in a fair and accurate manner. The Fund adopts a forward pricing basis which means that prices of Units will be calculated based on the NAV of the Fund at a valuation point in the future, i.e. the next valuation point.

For a Fund with no foreign market investments, if applications for Units or requests for repurchase are received before the cut-off time of 4.00 p.m. on a Business Day, say, 2 July 2019, the Manager will process the applications using the price of the Units for that Business Day, 2 July 2019. The price of the Units for 2 July 2019 will be calculated based on the market closing on 2 July 2019. Accordingly, applications for Units or requests for redemption received after the cut-off time of 4.00 p.m. on the Business Day will only be processed on the next Business Day.

For a Fund with foreign market investments, the valuation of the Fund will be done only on T+1 day due to the different time zones of foreign markets. The valuation of the Units in respect of a particular Business Day can only be carried out on the following Business Day at the close of business of the last relevant foreign market in which the Fund invests in.

The foreign exchange rate used for valuation of foreign investment is based on bid rate obtained from Reuters or Bloomberg at U.K. time 4.00 p.m. the same day.

If you want to know the latest prices of the Units, please contact the Manager directly or refer to our website [www.kenangainvestors.com.my](http://www.kenangainvestors.com.my).

## **7.2 PRICING POLICY**

### **Single Pricing**

Under the single pricing regime, both the Selling and Repurchase Price of the Funds will be quoted based on a single price i.e. the NAV per Unit of a Fund. NAV per Unit will be rounded to four (4) decimal points for the purposes of publication of the NAV per Unit.

When you invest in the Funds, the investment amount payable to us is rounded to 2 decimal points. The Units allocated in your investment account are also rounded to 2 decimal points. Your redemption value is also rounded to 2 decimal points.

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

**Incorrect Pricing**

Subject to any relevant law, if there is an error in the pricing of the NAV per Unit of the Fund, the Manager will take immediate remedial action to correct the error. Rectification shall, where necessary, extend to the reimbursements of money as follows if the error is at or above the significant threshold of 0.5% of the NAV per Unit:

- (a) if there is an over pricing in relation to the purchase and creation of Units, the Fund shall reimburse the Unit Holder;
- (b) if there is an over pricing in relation to the repurchase of Units, the Manager shall reimburse the Fund;
- (c) if there is an under pricing in relation to the purchase and creation of Units, the Manager shall reimburse the Fund; and
- (d) if there is an under pricing in relation to the repurchase of Units, the Fund shall reimburse the Unit Holder or former Unit Holder.

Subject to any regulatory requirements, the Manager shall have the right to amend, vary or revise the abovesaid limits or threshold from time to time.

**7.3 APPLICATION AND REDEMPTION OF UNITS**

**Where Units can be Bought and Sold**

Investors are required to complete applications forms or repurchase forms, which are available at the Manager's head office, regional offices, approved Institutional Unit Trust Advisers (IUTAs) and tied agents of the Manager throughout Malaysia. Please refer to Directory of the Manager's Offices and list of IUTAs at the end of this Master Prospectus.

The Funds may offer the following plans:

- (a) **"Cash Plan"** whereby an investor invests on a lump sum basis;
- (b) **"Financing Plan"** which is a personalised financial borrowing plan;
- (c) **"EPF Plan"** whereby an eligible EPF member can withdraw his/her EPF (Account 1) to invest in the Funds;
- (d) **"Easy Saver Plan"** which is a monthly regular saving plan.

The cut-off time for making an application for Units of the Funds is 4.00 p.m. on any Business Day, save for, KIMMF and KMMF which is at 11 a.m. on any Business Day. Application for Units made before the aforesaid cut-off times will be issued Units at the Selling Price calculated at the next valuation point (i.e. "forward pricing"). The cut-off time will be determined based on the time and date stamp made by the Manager.

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

Where an application is received after the cut-off times as set out above, the request will be deemed to have been received on the next Business Day.

**Note: The Manager reserves the right to accept or reject any application in whole or part thereof without assigning any reason.**

**INVESTORS ARE ADVISED NOT TO MAKE PAYMENT IN CASH TO ANY INDIVIDUAL AGENT WHEN PURCHASING UNITS OF A FUND.**

#### Transaction Details

Initial Investment	RM1,000
Additional Investment	RM100
EPF Members' Investment Scheme*	RM1,000
Minimum Redemption (Units)	500 Units
Minimum Switch (Units)	500 Units
Minimum Transfer (Units)	500 Units
Minimum Holdings (Units)	500 Units

Note:

The Manager reserves the right to change the minimum amounts and number of Units stipulated above from time to time.

\* The list of Funds that are allowed under the EPF Members Investment Scheme will be updated on the website at [www.kwsp.gov.my](http://www.kwsp.gov.my) as and when the EPF revises the list.

#### Redeeming Your Investment

The Funds do not have any restriction on the frequency of redemption. You may request the Manager to repurchase all or a minimum of 500 Units per transaction (*a minimum of 500 Units to remain in account at any time*) at any time by simply completing the repurchase form and returning it to the Manager through our appointed agents or direct to our business office.

The cut-off time for making a redemption request in respect of Units of the Funds is 4.00 p.m. on any Business Day, save for, KIMMF and KMMF which is at 11 a.m. on any Business Day. Redemption requests received by us before the aforesaid cut-off times will be transacted at the Repurchase Price calculated at the next valuation point on which the request was received (i.e. "forward pricing"). The cut-off time will be determined based on the time and date stamp made by the Manager.

Where the redemption request is received after the cut-off times as set out above, the request will be deemed to have been received on the next Business Day.

Payments of redemption proceeds will be made within ten (10) days from the date at which a redemption request is deemed received (except for KIMMF, KMMF, KCPF and KIECF where payment will be made on the next Business Day if the repurchase request is received by the Manager before the aforesaid cut-off times on any Business Day).

However, if the redemption request leaves a Unit Holder with less than 500 Units (Minimum Holdings), the Manager will automatically liquidate the balance of the Units held in the Unit Holder's account.

**Note: The Manager reserves the right to allow for such other lower amount of minimum redemption amount.**

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

### **Switching Option**

Switching is a facility that we offer to our Unit Holders. This facility is a convenient way of converting Units of one Fund to another fund that we manage, in response to changing market conditions or changes in your investment goals. Unit Holders may switch into or out of any of the funds which are managed by the Manager.

The minimum number of Units for each switching transaction is 500 Units or such other lower amount as the Manager in its sole discretion allows.

Application for switching of Units of the Funds should be made before the cut-off time of 4.00 p.m. on any Business Day, except for KIMMF and KMMF which is at 11 a.m. on any Business Day. Where the application for switching of Units of the Funds are received after the aforesaid cut-off times, the application for switching of Units will be deemed to have been received on the next Business Day.

In executing his/her transaction, the Unit Holder must ensure that he/she maintain a minimum of 500 Units in his/her account with the respective Funds if he/she intends to stay invested with the Funds. In the event a switching request leaves a Unit Holder with less than 500 Units (Minimum Holdings), the Manager will automatically switch the balance of the Units held in the Unit Holder's account into the fund selected by the Unit Holder. The minimum number of Units for each switching transaction is 500 Units.

Switching is treated as a withdrawal from one (1) fund and an investment into another fund. A Unit Holder switching from a fund with a lower sales charge, to a fund with a higher sales charge will pay the difference in sales charge between the sales charge of these two (2) funds. If a Unit Holder switches from one (1) fund with higher sales charge to another fund with a lower sales charge, the Unit Holder will switch at the NAV per unit of the other fund.

Switching from Islamic fund to a conventional fund is discouraged especially for Muslim Unit Holders.

### **Transfer of Units**

Units of any of the Funds are transferable without any fee and restrictions. A copy of the "Transfer Form" can be obtained from the Manager's office.

However, if the transfer request leaves a Unit Holder with less than 500 Units (Minimum Holdings), the Manager will not proceed with the transfer request and the transaction is considered void until the Unit Holder makes a fresh application for the transfer request.

### **Cooling-Off Right**

A cooling-off right refers to the right of the investor to obtain a refund of his/her investment if he/she so requests within the cooling-off period (***within six (6) Business Days from the date of receipt of application***). This is to allow investors the opportunity to reverse their investment decision that could have been unduly influenced by certain external elements or factors (EPF investors are subject to EPF's terms and conditions). The cooling-off right is only given to an individual investor, other than those listed below, who is investing for the first time in any unit trust funds managed by the Manager:

- (i) a staff of the Manager; and
- (ii) persons registered with a body approved by SC to deal in unit trust funds.

Within the cooling-off period, the refund to the investors shall not be less than the sum of:

- (a) the NAV of the Units on the day the Units were purchased; and
- (b) the sales charge originally imposed on the day the Units were purchased.

In other words, the investors shall be refunded their "original investment proceeds", within ten (10) days (from the date of receipt of the cooling-off notice by the investors). "Cooling-Off Period" or "Cooling-Off Right" is not applicable to EPF Member Investment Scheme (EPF MIS). Any application for cooling-off must be made before the cut-off time of 4.00 p.m. on any Business Day.

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

**Illustration: Cooling-Off Refund**

A first time investor invests RM10,000.00 on 31 March 20XX at the following prices:

Amount Paid by Investor:	RM10,000.00
Less sales charge (5.50% of selling price):	RM 550.00
Amount Invested into the Fund:	RM 9,450.00
Add sales charge:	<u>RM 550.00</u>
Total Refunded Amount:	<u>RM10,000.00</u>

**Facsimile or Email Instruction Facility**

For KCPF, KIECF, KIMMF and KMMF, a Unit Holder may choose to give us a facsimile or email instruction for additional investment, switching or redemption. A Unit Holder may communicate with the Manager via fax number at 03-2172 3133 or email at [investorservices@kenanga.com.my](mailto:investorservices@kenanga.com.my)

The Manager shall not be liable to the Unit Holders for any loss, liability or expenses that may result from errors, unauthorized alterations, instructions, fraud, forgery, operational failures or faults of the Unit Holder's instructions. All instructions given or purported to be given via the facility(s) shall be sent at the own risk of the Unit Holder; and the Unit Holder shall accept full responsibility for any losses arising as a result of the Manager acting upon the instruction given through the facility(s). Unit Holder shall release and indemnify the Manager and the Trustee against all claims, including but not limited to claims by third party, in respect of any liabilities incurred by the Manager as a result of the Manager acting upon such instruction given through fax or email.

**7.4 DISTRIBUTION POLICY AND REINVESTMENT POLICY**

In the absence of instructions from a Unit Holder, distributions from the Fund are automatically reinvested into additional Units of that Fund based on the NAV per Unit with NO sales charge on the next Business Day after the distribution declaration date.

If there is any change to the distribution instructions, Unit Holders need to notify the Manager within fourteen (14) days prior to the distribution payment date. For EPF investors, it is mandatory that all distribution of income shall be reinvested automatically.

For Unit Holders opt for distribution proceeds to be paid out to them, any distribution proceeds amounting to **RM250 and below** shall be automatically reinvested as additional Units of that Fund based on the NAV per Unit with NO sales charge on the next Business Day after the distribution declaration date.

In the event that cheques for distribution are not presented within six (6) months from the date of payment, the unclaimed distributions will be automatically reinvested into additional Units, based on the prevailing NAV per Unit fifteen (15) Business Days from the end of the said six (6) months period.

**7.5 UNCLAIMED MONEYS**

Under the provision of the Unclaimed Moneys Act 1965, any distribution/money that remains unsettled after more than 12 months as at 31 December each year from its payment date have to be gazetted and surrendered to the Registrar of Unclaimed Moneys, Accountant General's Department by 31 March in the following year. Thereafter, Unit Holders who wish to claim their distribution/money are required to forward their claims directly to the Registrar of Unclaimed Moneys by completing Form UMA7 (Claim form to refund unclaimed moneys from the Consolidated Trust Account) together with supporting documents i.e. identity card, original documents (example: distribution warrant) and copy of bank statement. Form UMA7 can be obtained from the office of Registrar of Unclaimed Moneys or downloaded from the website: <http://www.anm.gov.my/index.php/en/khidmat/wang-tak-dituntut>.

**Unit prices and distributions payable, if any, may go down as well as up.**

## **8.2 THE EXTERNAL FUND MANAGER**

**(Only for the KIF, KSGF, KIBF, KIECF, KIMMF, KSGOF, KEIF and KBIF)**

### **Kenanga Islamic Investors Berhad ("KIIB")**

KIIB was incorporated as a public company in 1997 under the Companies Act 1965 as Kenanga Unit Trust Berhad ("KUTB") to solely conduct a unit trust business in Malaysia.

In 2009, pursuant to the rationalization and re-organization of the asset and unit trust management businesses of the K & N Kenanga Holdings Berhad group of companies ("Kenanga Group"), the business and assets of Kenanga Asset Management Sdn Bhd ("KAM") a fund management company within the Kenanga Group was transferred to KUTB. KUTB subsequently applied for and was licensed as a fund manager under the Act. KUTB was renamed as Kenanga Fund Management Berhad ("KFMB") following the completion of the rationalization and re-organization exercise.

In November 2010, KFMB transferred its business and employees to Kenanga Investors Berhad and subsequently changed its name to Kenanga Islamic Investors Berhad in August 2011.

Pursuant to the Kenanga Group business plans for KIIB to become a fully operational Islamic fund management business, KIIB applied for and received its Islamic fund management licence from the Securities Commission in April 2012. KIIB is the Kenanga Group's asset management arm focused on exclusively providing Shariah-compliant investment products to both domestic and regional markets. Effective 1 April 2013, KIIB is a wholly-owned subsidiary of KIB.

### **Retirement, Removal or Replacement of the Manager**

Subject to the approval of the relevant authorities, the Manager has the power to retire in favour of some other corporation and as necessary under any relevant law upon giving to the Trustee three (3) months' notice in writing of the Manager's desire so to do, or such lesser time as the Manager and the Trustee may agree upon, and subject to the fulfilment of the following conditions:

- the retiring Manager shall appoint such corporation by writing under its seal as the management company of the Fund in its stead and assign and transfer to such corporation all its rights and duties as management company of the Fund;
- such corporation shall enter into such deed or deeds as the Trustee may consider to be necessary or desirable to secure the due performance of its duties as management company for the Fund;
- upon the payment to the Trustee of all sums due from the retiring Manager to the Trustee at the date of such retirement, the retiring Manager shall be absolved and released from all further obligations hereunder but without prejudice to the rights of the Trustee or any Unit Holder or other person in respect of any act or omission on the retiring Manager's part prior to such retirement and the new management company may and shall thereafter exercise all the powers and enjoy all the rights and shall be subject to all the duties and obligations as fully as though such new management company had been originally a party to the Deed.

### **Powers of the Manager to Remove the Trustee**

The Manager is obliged to give the Unit Holders notice in writing to consider the removal of the Trustee if the Trustee fails or neglects to carry out its duties as stipulated in the Deed and under the Act. The Manager shall take all reasonable steps to replace the Trustee as soon as practicable after becoming aware that:

- the Trustee has ceased to exist;
- the Trustee has not been validly appointed;
- the Trustee is not eligible to be appointed or act as a trustee under any relevant law;
- the Trustee has failed or refused to act as Trustee in accordance with the provisions or covenants of the Deed or any relevant law;
- a receiver is appointed over the whole or a substantial part of the assets or undertaking of the Trustee and has not ceased to act under the appointment,
- a petition is presented for the winding up of the Trustee (other than for the purpose of and followed by a reconstruction, unless during or following such reconstruction the Trustee becomes or is declared to be insolvent); or
- the Trustee is under investigation for conduct that contravenes the Trust Companies Act 1949, the Trustee Act 1949, the Companies Act 1965 (*now known as the Companies Act 2016*) or any relevant law.

The Trustee may be removed and another trustee may be appointed by special resolution of the Unit Holders at a duly convened meeting of which notice has been given to the Unit Holders in accordance with the Deed.

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

**Retirement or Removal or Replacement of the Trustee**

Provided always that the Manager has in place a corporation approved by the relevant authorities to act as the trustee of the Fund, the Trustee may retire upon the expiration of three (3) months' (or such other period as the Manager and the Trustee may agree upon), notice in writing to the Manager of its desire so to do.

The Trustee may be removed and another trustee may be appointed by way of a special resolution of the Unit Holders at a Unit Holders' meeting convened in accordance with the Deed or as stipulated under the Act.

**Power of Trustee to Remove or Replace the Manager**

The Manager may be removed by the Trustee on the following grounds:

- if the Manager has failed or neglected to carry out its duties to the satisfaction of the Trustee and the Trustee considers that it would be in the Unit Holders' interest to do so after the Trustee has given notice to it of that opinion and the reasons for that opinion, and has considered any representations made by the Manager in respect of that opinion, and after consultation with the relevant authorities and with the approval of the Unit Holders by way of a special resolution;
- unless expressly directed otherwise by the relevant authorities, if the Manager is in breach of any of its obligations or duties under the Deed or the relevant laws, or has ceased to be eligible to be a management company under the relevant laws; or
- the Manager has gone into liquidation, except for the purpose of amalgamation or reconstruction or some similar purpose, or has had a receiver appointed or has ceased to carry on business.

If any of the events set out above occurs, the Manager shall upon receipt of a written notice from the Trustee cease to be the management company of the Fund by the mere fact that the Manager has received the notice. The Trustee shall, at the same time, by writing appoint some other corporation already approved by the relevant authorities to be the management company of the Fund; such corporation shall have entered into such deed or deeds as the Trustee may consider to be necessary or desirable to secure the due performance of its duties as management company for the Fund.

**Termination of the Fund**

Circumstances that may lead to the termination of the Fund:-

- A special resolution is passed at a Unit Holders' meeting to terminate or wind up the Fund, following occurrence of events stipulated under section 301(1) of the Act and the court has confirmed the resolution, as required under section 301(2) of the Act;
- A special resolution is passed at a Unit Holders' meeting to terminate or wind up the Fund;
- The Fund has reached its maturity date as specified in the Deed (if applicable); and
- The effective date of an approved transfer scheme (if any) has resulted in the Fund, which is the subject of the transfer scheme, being left with no asset/property.

Upon the termination of the Fund, the Trustee shall:

- (a) sell all the assets of the Fund then remaining in its hands and pay out of the Fund any liabilities of the Fund; such sale and payment shall be carried out and completed in such manner and within such period as the Trustee considers to be in the best interests of the Unit Holders; and
- (b) from time to time distribute to the Unit Holders, in proportion to the number of Units held by them respectively:
  - i) the net cash proceeds available for the purpose of such distribution and derived from the sale of the investments and assets of the Fund less any payments for liabilities of the Fund; and
  - ii) any available Cash Produce;

provided always that the Trustee shall not be bound, except in the case of final distribution, to distribute any of the moneys for the time being in his hands the amount of which is insufficient for payment to the Unit Holders of fifty (50) sen in respect of each Unit and provided also that the Trustee shall be entitled to retain out of any such moneys in his hands full provision for all costs, charges, taxes, expenses, claims and demands incurred, made or anticipated by the Trustee in connection with or arising out of the winding-up of the Fund and, out of the moneys so retained, to be indemnified against any such costs, charges, taxes, expenses, claims and demands; each such distribution shall

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

be made only against the production of such evidence as the Trustee may require of the title of the Unit Holder relating to the Units in respect of which the distribution is made.

In the event Fund is terminated, the Trustee shall be at liberty to call upon the Manager to grant the Trustee, and the Manager shall so grant, a full and complete release from the Deed and the Manager shall indemnify the Trustee against any claims arising out of the Trustee's execution of the Deed provided always that such claims have not been caused by any failure on the part of the Trustee to exercise the degree of care and diligence required of a trustee as contemplated by the Deed and all relevant laws.

The Trustee shall, as soon as it becomes aware that the Fund is to be terminated and wound-up, inform the relevant authorities of the same.

Where the termination of the Fund and the winding-up of the Fund has been occasioned by any of the events set out herein;

- (a) if the Manager has gone into liquidation, except for the purpose of reconstruction or amalgamation upon terms previously approved in writing by the Trustee and the relevant authorities;
- (b) if, in the opinion of the Trustee, the Manager has ceased to carry on business; or
- (c) if, in the opinion of the Trustee, the Manager has to the prejudice of Unit Holders failed to comply with the provisions of the Deed or contravened any of the provisions of any relevant law;

the Trustee shall summon for a Unit Holders meeting to get directions from the Unit Holders and also arrange for a final review and audit of the final accounts of the Fund by the auditor of the Fund; in all other cases of termination of the trust and winding-up of the Fund, such final review and audit by the auditor of the Fund shall be arranged by the Manager.

## **PROVISIONS REGARDING UNIT HOLDERS MEETINGS**

### **Quorum Required for Convening a Unit Holders' Meeting**

The quorum required for a meeting of the Unit Holders shall be five (5) Unit Holders, whether present in person or by proxy, provided that if the Fund has five (5) or less Unit Holders, the quorum required for a meeting of the Unit Holders of the Fund shall be two (2) Unit Holders, whether present in person or by proxy; if the meeting has been convened for the purpose of voting on a special resolution, the Unit Holders present in person or by proxy must hold in aggregate at least twenty five per centum (25%) of the Units in circulation at the time of the meeting.

### **Unit Holders' Meeting convened by Unit Holders**

Unless otherwise required or allowed by the relevant laws, the Manager shall, within twenty-one (21) days of receiving a direction from not less than fifty (50) or one-tenth (1/10) of all the Unit Holders, summon a meeting of the Unit Holders by:

- (a) sending by post at least seven (7) days before the date of the proposed meeting a notice of the proposed meeting to all the Unit Holders;
- (b) publishing at least fourteen (14) days before the date of the proposed meeting an advertisement giving notice of the proposed meeting in a national language newspaper published daily and another newspaper approved by the relevant authorities; and
- (c) specifying in the notice the place and time of the meeting and the terms of the resolutions to be proposed at the meeting.

The Unit Holders may direct the Manager to summon a meeting for any purpose including, without limitation, for the purpose of:

- (a) requiring the retirement or removal of the Manager;
- (b) requiring the retirement or removal of the Trustee;
- (c) considering the most recent financial statements of the Fund;
- (d) giving to the Trustee such directions as the meeting thinks proper; or
- (e) considering any matter in relation to the Deed;

provided always that the Manager shall not be obliged to summon such a meeting unless direction has been received from not less than fifty (50) or one-tenth (1/10) of all the Unit Holders.

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

**Unit Holders' Meeting convened by Manager**

Unless otherwise required or allowed by the relevant laws, the Manager may convene a Unit Holders' meeting by giving Unit Holders' a 14 day written notice specifying the place, time and terms of the resolutions to be proposed.

**Unit Holders meeting convened by the Trustee**

The Trustee may convene a Unit Holders' meeting by giving Unit Holders' a 14 day written notice specifying the place, time and terms of the resolutions to be proposed for any purpose including, without limitation, for the purpose of:

- (a) requiring the retirement or removal of the Manager;
- (b) giving instructions to the Trustee or the Manager if the Trustee considers that the investment management policies of the Manager are not in the interests of Unit Holders;
- (c) securing the agreement of the Unit Holders to release the Trustee from any liability;
- (d) deciding on the next course of action after the Trustee has suspended the sale and redemption of Units; and
- (e) deciding on the reasonableness of the annual management fee charged to the Fund.

In the circumstances where:

- (a) the Manager is in liquidation,
- (b) in the opinion of the Trustee, the Manager has ceased to carry on business, or
- (c) in the opinion of the Trustee, the Manager has, to the prejudice of Unit Holders, failed to comply with the Deed or contravened any of the provisions of the Act,

the Trustee shall summon a Unit Holders' meeting by sending by post a notice of the proposed meeting to the Unit Holders at least 21 days before the date of the proposed meeting; and publishing at least 21 days before the date of the proposed meeting an advertisement giving notice of the meeting in a national language newspaper published daily and another newspaper permitted by the relevant authorities.

## **12. CONFLICT OF INTERESTS AND RELATED PARTY TRANSACTIONS**

### **Policies and Procedures on Dealing with Conflict of Interest**

#### **Manager**

A situation of conflict of interest may erode the trust and confidence of the public in dealing with the Manager. Hence, the directors and investment committee members must be alert and avoid or declare any conflict of interest situations to the company secretary. Staff of the Manager will declare to the Compliance Officer in the event of all conflicts or any potential conflict of interest situations.

All conflict of interest situations, if any, will be forwarded to the audit committee (AC) for deliberation before a fair and equitable decision is reached. As at 1 April 2017, none of the Manager's director or substantial shareholder has direct or indirect interest in other corporations carry on a similar business, except as otherwise disclosed below:

Kenanga Islamic Investors Berhad is a wholly-owned subsidiary of Kenanga Investors Berhad.

#### **Members Dealing in Securities**

- (a) Trading in securities by a member for his/her personal account or for a connected person or under the name of a nominee is not encouraged and if done so, he/she should ensure that the dealing is not taking advantage or be viewed as taking advantage of information not generally known to the public.
- (b) Dealings by employees in their own name or on behalf, and for the benefit, of another person may only be carried out with the prior approval of Compliance officer.
- (c) A member when dealing in securities whether for the company, the client or personal account shall consistently adhere to ethical standards in such dealings. A member shall not engage in share dealing transactions of a nature that is questionable or illegal and therefore shall not engage in share dealing transactions, either by himself or with others which are, or which will give resemblance of false trading, market rigging or market manipulation.

#### **Cross Trade**

Investment manager may perform cross trades between funds and/or its private mandate clients subject to the relevant client's, internal and regulatory requirements. However, cross trades between the personal account of an employee of the Manager and any funds' account or between the Manager's proprietary accounts and its client's accounts are strictly prohibited. Compliance with the relevant internal and regulatory requirements on cross trades is closely monitored and is reported to Investment Committee accordingly.

### **13. TAX ADVISER'S LETTER IN RESPECT OF THE TAXATION OF THE UNIT TRUST AND THE UNIT HOLDERS**

(prepared for inclusion in this Master Prospectus)

15 November 2018

The Board of Directors  
Kenanga Investors Berhad  
Level 14, Kenanga Tower

Dear Sirs

#### **TAXATION OF THE UNIT TRUST AND UNIT HOLDERS**

This letter has been prepared for inclusion in this Replacement Master Prospectus in connection with the offer of units in the unit trust listed in Appendix 1 (hereinafter referred to as "the Funds").

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Funds and the unit holders.

#### **TAXATION OF THE FUNDS**

The taxation of the Funds is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Funds comprising interest and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from the year of assessment 2016.

Under Section 2(7) of the MITA, any reference to interest shall apply, *mutatis mutandis*, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*.

The effect of this is that any gains or profits received (hereinafter referred to as "profits") and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*, will be accorded the same tax treatment as if they were interest.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as 'permitted expenses') not directly related to the production of income, as explained below.

"Permitted expenses" refer to the following expenses incurred by the Funds which are not deductible under Section 33(1) of the MITA:

- the manager's remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

$$A \times \frac{B}{4C}$$

- where
- A is the total of the permitted expenses incurred for that basis period;
  - B is gross income consisting of dividend<sup>1</sup>, interest and rent chargeable to tax for that basis period; and
  - C is the aggregate of the gross income consisting of dividend<sup>1</sup> and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

### **Exempt income**

The following income of the Funds is exempt from income tax:

- **Malaysian sourced dividends**

All Malaysian-sourced dividends should be exempt from income tax.

- **Malaysian sourced interest (profits)**

- (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;
- (ii) interest from debentures or *sukuk*, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;
- (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;
- (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013<sup>2</sup>;
- (v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002<sup>2</sup>;
- (vi) interest from *sukuk* originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA)<sup>3</sup>; and
- (vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.

- **Discount**

Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

---

Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

<sup>2</sup> Effective from the year of assessment 2017, in the case of a wholesale fund which is a money market fund, the exemption shall only apply to a wholesale fund which complies with the criteria as set out in the relevant guidelines of the Securities Commission Malaysia.

<sup>3</sup> Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

**Foreign sourced income**

Dividends, interest and other income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

**Gains from the realisation of investments**

Pursuant to Section 61(1) (b) of the MITA, gains from the realisation of investments will not be treated as income of the Funds and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RPGT) under the Real Property Gains Tax Act 1976 (RPGT Act), if the gains are derived from the sale of chargeable assets, as defined in the RPGT Act.

**Implementation of Sales and Service Tax (“SST”)**

The new Sales and Service Tax (“SST”) was implemented effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Funds incurs expenses such as management fees, the management services provided by asset and fund managers are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a “taxable person”, who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as “taxable services”).

**Taxation of Unit Holders**

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Funds.

The income of unit holders from their investment in the Funds broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

**1. Taxable distributions**

Distributions received from the Funds will have to be grossed up to take into account the underlying tax paid by the Funds and the unit holder will be taxed on the grossed up amount.

Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

**2. Non-taxable and exempt distributions**

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Funds will not be subject to Malaysian income tax in the hands of the unit holders.

**Rates of tax**

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

Unit holders	Malaysian income tax rates
<p>Malaysian tax resident:</p> <ul style="list-style-type: none"> <li>• Individual and non-corporate unit holders (such as associations and societies)</li> <li>• Co-operatives<sup>4</sup></li> <li>• Trust bodies</li> </ul>	<ul style="list-style-type: none"> <li>• Progressive tax rates ranging from 0% to 28%</li> <li>• Progressive tax rates ranging from 0% to 24%</li> <li>• 24% (Note 1)</li> </ul>
<ul style="list-style-type: none"> <li>• Corporate unit holders               <ul style="list-style-type: none"> <li>(i) A company with paid up capital in respect of ordinary shares of not more than RM2.5 million (at the beginning of the basis period for the year of assessment)<sup>5</sup></li> <li>(ii) Companies other than (i) above</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>• First RM500,000 of chargeable income @ 18%<sup>6</sup></li> <li>• Chargeable income in excess of RM500,000 @ 24% (Note 1)</li> <li>• 24% (Note 1)</li> </ul>
<p>Non-Malaysian tax resident (Note 2):</p> <ul style="list-style-type: none"> <li>• Individual and non-corporate unit holders</li> <li>• Corporate unit holders and trust bodies</li> </ul>	<ul style="list-style-type: none"> <li>• 28%</li> <li>• 24% (Note 1)</li> </ul>

<sup>4</sup> Pursuant to Paragraph 12(1), Schedule 6 of the MITA, the income of any co-operative society—  
 (a) in respect of a period of five years commencing from the date of registration of such co-operative society; and  
 (b) thereafter where the members' funds [as defined in Paragraph 12(2)] of such co-operative society as at the first day of the basis period for the year of assessment is less than seven hundred and fifty thousand ringgit is exempt from tax.

<sup>5</sup> A company would not be eligible for the 19% tax rate on the first RM500,000 of chargeable income if:-  
 (a) more than 50% of the paid up capital in respect of the ordinary shares of the company is directly or indirectly owned by a related company which has paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment;  
 (b) the company owns directly or indirectly more than 50% of the paid up capital in respect of the ordinary shares of a related company which has paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment;  
 (c) more than 50% of the paid up capital in respect of the ordinary shares of the company and a related company which has a paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of a basis period for a year of assessment is directly or indirectly owned by another company.

<sup>6</sup> Effective from the year of assessment 2017, the tax rate is reduced from 19% to 18%.

**THIS MASTER PROSPECTUS DATED 29 MARCH 2019 IS A REPLACEMENT MASTER PROSPECTUS THAT SUPERCEDES THE MASTER PROSPECTUS DATED 30 JUNE 2017 AND THE SUPPLEMENTAL MASTER PROSPECTUS DATED 2 FEBRUARY 2018.**

Note 1:

The Income Tax (Exemption) (No. 2) Order 2017 [P. U. (A) 117] was gazetted on 10 April 2017 to formalize the Budget 2017 proposal to reduce the corporate income tax rate on incremental chargeable income. The Exemption Order exempts a qualifying person from payment of income tax on an ascertained amount of chargeable income derived from the business source in the basis period for a year of assessment, for the years of assessment 2017 and 2018 only. A qualifying person includes a trust body that is resident in Malaysia but excludes a Real Estate Investment Trust or Property Trust Fund. The corporate income tax rate would be reduced by between one to four percentage points, depending on the increase in chargeable income derived from the business source (as compared to the immediate preceding year of assessment). Details of the further qualifications and conditions imposed are set out in the Exemption Order.

Note 2:

Non-resident unit holders may be subject to tax in their respective countries depending on the provisions of the tax legislation in the respective countries and any existing double taxation arrangements with Malaysia.

**Gains from sale of units**

Gains arising from the realisation of investments will not be subject to income tax in the hands of unit holders unless they are insurance companies, financial institutions or traders/ dealers in securities.

**Unit splits and reinvestment of distributions**

Unit holders may also receive new units as a result of unit splits or may choose to reinvest their distributions. The income tax implications of these are generally as follows:

- Unit splits – new units issued by the Funds pursuant to a unit split will not be subject to income tax in the hands of the unit holders.
- Reinvestment of distributions – unit holders may choose to reinvest their income distribution in new units by informing the Manager. In this event, the unit holder will be deemed to have received the distribution and reinvested it with the Funds.

\*\*\*\*\*

We hereby confirm that, as at the date of this letter, the statements made in this letter correctly reflect our understanding of the tax position under current Malaysian tax legislation and the related interpretation and practice thereof, all of which are subject to change, possibly on a retrospective basis. We have not been retained (unless specifically instructed hereafter), nor are we obligated to monitor or update the statements for future conditions that may affect these statements.

The statements made in this letter are not intended to be a complete analysis of the tax consequences relating to an investor in the Funds. As the particular circumstances of each investor may differ, we recommend that investors obtain independent advice on the tax issues associated with an investment in the Funds.

Yours faithfully

## **14. ADDITIONAL INFORMATION**

### **Updates on the Funds**

The interim and annual reports of each Fund will be forwarded to Unit Holders no later than two (2) months after the end of the financial period in respect of each Fund.

Unit Holders and potential investors can refer to web-site: [www.kenangainvestors.com.my](http://www.kenangainvestors.com.my) for pricing information.

A statement of accounts will be issued to each Unit Holder on a half yearly basis. It will summarise all transactions effected within each Fund for the past six (6) months and/or since inception as a Unit Holder.

**THE FUND'S ANNUAL REPORT IS AVAILABLE UPON REQUEST.**

### **Customer Service**

Unit Holders can seek the assistance of our marketing personnel on Fund related issues at the Manager's business office during our business hours from 8.30 a.m. to 5.30 p.m. from Monday to Friday (refer to the *Directory of the Manager's Office and List of IUTA* section for contact numbers).

### **Anti-Money Laundering Policies**

Money laundering is a process intended to conceal the benefits derived from unlawful activities which are related, directly or indirectly, to any serious offence so that they appear to have originated from a legitimate source.

The Anti-Money Laundering, Anti-Terrorism Financing and Proceeds of Unlawful Activities Act 2001 (AMLATFPUAA) is the act that provides for the offence of money laundering and also the measures to be taken for the prevention of money laundering and terrorism financing offences. The Financial Intelligence and Enforcement Department (FIED) of BNM has been established to carry out the functions as the competent authority under the AMLATFPUAA. All market intermediaries under the Act and management companies approved by the Securities Commission under the Act are obliged to comply with the provisions of the AMLATFPUAA.

Under the AMLATFPUAA, any person who:

- a) engages, directly or indirectly, in a transaction that involves proceeds of an unlawful activity or instrumentalities of an offence;
- b) acquires, receives, possesses, disguises, transfers, converts, exchanges, carries, disposes of or uses proceeds of an unlawful activity or instrumentalities of an offence;
- c) removes from or brings into Malaysia, proceeds of an unlawful activity or instrumentalities of an offence; or
- d) conceals, disguises or impedes the establishment of the true nature, origin, location, movement, disposition, title of, rights with respect to, or ownership of, proceeds of an unlawful activity or instrumentalities of an offence,

commits a money laundering offence and shall on conviction be liable to imprisonment for a term not exceeding fifteen years and shall also be liable to a fine of not less than five times the sum or value of the proceeds of an unlawful activity or instrumentalities of an offence at the time the offence was committed or five million ringgit, whichever is the higher.

When opening new accounts and entering into a transaction with a client, the Manager identifies and verifies the client through documents such as identity card, passport, birth certificate, driver's licence, constituent documents or any other official documents, whether in the possession of a third party or otherwise. Such documents shall be filed by the Manager in accordance with relevant laws. Where the Manager suspects that a particular transaction may not be genuine, a report will be made to the FIED.

## **C. THE FUNDS**

### **Page 6 of the Master Prospectus**

The following paragraph is hereby inserted after the fifth paragraph of the investment policy and strategy under Section 3.1 – Kenanga Premier Fund (KPF):

#### Other Investment Strategies

In addition to the investment strategies discussed above, the Manager may invest up to 10% of the Fund's NAV in L&I funds. Through the L&I funds, the Manager would be able to hedge against a bearish market or mitigate a panic market sell-down by investing in an inverse exchange-traded fund. On the other note, the Manager may take advantage of a market uptrend by investing in a leveraged exchange-traded fund to enhance the performance of the Fund.

Utilizing L&I funds like all investments involves a certain degree of risk. Though L&I funds is supposedly designed to track the performance of the index, there are bound to have tracking error between the performances of the L&I funds and the tracked index. The market price of L&I funds will generally fluctuate in accordance with the supply of and demand for the units of the L&I funds; whereby the trading price of L&I funds may also differ from the L&I funds' net asset value. Therefore, the ease with L&I funds can be sold at or near its fair value depending very much on the volume traded on the market. In essence, investing into widely recognized and tradable L&I funds will eventually lead to portfolio management in a more efficient manner. If the fund manager inadvertently makes a wrong investment decision to invest in a leveraged exchange-traded fund during a market downtrend or if the fund manager inadvertently makes a wrong investment

**This Supplemental Master Prospectus is supplementary to and has to be read in conjunction with the Master Prospectus dated 29 March 2019.**

decision to invest in an inverse exchange-traded fund during a market uptrend, the NAV of the Fund will be adversely affected. As such, taking a position in L&I funds pose a risk if markets move in an opposite direction, or an opportunity if the positions are correct. However, any gains or losses in the portfolio is limited to the nominal exposure of the L&I funds it partakes in.

As part of KIB's risk management strategy and policy, KIB will be managing the investments into L&I funds in accordance with its in-house investment rules. In addition, KIB's risk management team monitors and has oversight over the investment activities undertaken by the Fund. Risk management reports are submitted to the Investment Committee on a quarterly basis.

Item 1 of the investment restrictions and limits under Section 3.1 – Kenanga Premier Fund (KPF) is hereby deleted in its entirety and replaced with the following:

1. The value of the Fund's investments in unlisted securities and L&I funds must not exceed 10% of the Fund's NAV or such other limit as may be prescribed by the SC.

Item 1 of the investment restrictions and limits under Section 3.4 – Kenanga Asia Pacific Total Return Fund (KAPTRF) is hereby deleted in its entirety and replaced with the following:

1. The value of the Fund's investments in unlisted securities and L&I funds must not exceed 10% of the Fund's NAV or such other limit as may be prescribed by the SC.

**Page 19 of the Master Prospectus**

The following paragraph is hereby inserted after the seventh paragraph of the investment policy and strategy under Section 3.5 – Kenanga ASEAN Tactical Total Return Fund (KATTRF):

Other Investment Strategies

In addition to the investment strategies discussed above, the Manager may invest up to 10% of the Fund's NAV in L&I funds. Through the L&I funds, the Manager would be able to hedge against a bearish market or mitigate a panic market sell-down by investing in an inverse exchange-traded fund. On the other note, the Manager may take advantage of a market uptrend by investing in a leveraged exchange-traded fund to enhance the performance of the Fund.

Utilizing L&I funds like all investments involves a certain degree of risk. Though L&I funds is supposedly designed to track the performance of the index, there are bound to have tracking error between the performances of the L&I funds and the tracked index. The market price of L&I funds will generally fluctuate in accordance with the supply of and demand for the units of the L&I funds; whereby the trading price of L&I funds may also differ from the L&I funds' net asset value. Therefore, the ease with L&I funds can be sold at or near its fair value depending very much on the volume traded on the market. In essence, investing into widely recognized and tradable L&I funds will eventually lead to portfolio management in a more efficient manner. If the fund manager inadvertently makes a wrong investment decision to invest in a leveraged exchange-traded fund during a market downtrend or if the fund manager inadvertently makes a wrong investment decision to invest in an inverse exchange-traded fund during a market uptrend, the NAV of the Fund will be adversely affected. As such, taking a position in L&I funds pose a risk if markets move in an opposite direction, or an opportunity if the positions are correct. However, any gains or losses in the portfolio is limited to the nominal exposure of the L&I funds it partakes in.
