Laporan Tahunan *Annual Report 2001*

RASIONAL KULIT / COVER RATIONALE

Muka hadapan Laporan Tahunan Bank Muamalat menampilkan warna oren terang, ianya menonjolkan warna korporat yang mencerminkan iltizam Bank Muamalat untuk menyajikan pelanggan dengan produk dan perkhidmatan perbankan Islam yang adil and kompetitif.

Tradisi penggunaan warna oren turut menzahirkan kesungguhan Bank menerapkan elemen-elemen bersifat kukuh, progresif dan moden dalam amalan operasinya.

Garisan yang membentuk logo Bank Muamalat diibaratkan muara sungai - penjelmaan visi Bank untuk menyempurnakan hubungan sesama insan seperti pepatah Melayu "Bagaikan aur dengan tebing".

A brilliant orange, colours the front cover of Bank Muamalat's Annual Report, expressing the Bank's corporate colour which reflects its commitment to provide clients with Islamic banking products and services that are fair and competitive.

The traditional orange also echoes the Bank's endeavour to instill elements of strength, progress and modernity in its operational practices.

The outline of the Bank's logo resembles an intricate delta - a reflection of the Bank's vision in perfecting the inter-relationships among mankind, as in the old Malay proverb "Bagaikan aur dengan tebing", where the reed helps to strengthen the river bank in an interplay of support given from one to another.

PENYATA PENERUSI

Bagi pihak Lembaga Pengarah, saya berbangga mengemukakan Laporan Tahunan dan Penyata Kewangan yang diaudit bagi Bank Muamalat Malaysia Berhad untuk tahun berakhir Disember 2001.

Persekitaran Operasi

Tahun 2001 merupakan tahun yang mencabar bagi sektor perbankan disebabkan oleh kelembapan ekonomi dunia. Ekonomi domestik berkembang perlahan sebanyak 0.4% sahaja berbanding 8.3% dalam tahun 2000. Kejatuhan besar dalam kadar pertumbuhan diterjemahkan kepada pertumbuhan kecil sebanyak 3.6% dalam pinjaman dan pembiayaan sektor perbankan manakala deposit menurun sebanyak 2.0%. Keadaan ekonomi yang sukar ini turut menyebabkan banyak perniagaan gagal dan meningkatkan pinjaman tidak berbayar.

Walaupun kadar pertumbuhan ekonomi perlahan dalam tahun 2001, sektor perbankan Islam berjaya mencatatkan pertumbuhan yang berterusan. Sektor ini mencatat 8.2% jatah pasaran aset perbankan di negara ini. Minggu Perbankan Islam dan Takaful daripada 26 Oktober hingga 1 November 2001 yang diterajui oleh Bank Negara Malaysia telah berjaya meningkatkan tahap kefahaman dan juga penggunaan produk dan perkhidmatan perbankan Islam. Walaupun beroperasi dalam keadaan ekonomi yang sukar, saya berbangga melaporkan untuk tahun kewangan di bawah kajian, Bank Muamalat telah berjaya mencatat pertumbuhan ketara dalam deposit, aset, pembiayaan dan keuntungan.

Pencapaian Kewangan

Bank mencatat keuntungan sebelum cukai dan zakat yang baik sebanyak RM18.4 juta berbanding RM8.2 juta tahun sebelumnya.

Jumlah pendapatan meningkat sebanyak 86% daripada RM143 juta dalam 2000 kepada RM287 juta dalam 2001. Pendapatan tertinggi disumbangkan melalui pendapatan pembiayaan iaitu sejumlah RM147.4 juta atau 51.3% daripada jumlah keseluruhan pendapatan. Ia diikuti oleh pendapatan dari pelaburan dalam sekuriti yang menyumbangkan sebanyak RM83.5 juta atau 29%. Hasil dari ini, Bank telah mengeluarkan dividen dan hibah yang lebih tinggi kepada pendeposit iaitu pertumbuhan sebanyak 64% kepada RM129.4 juta.

Dengan pertumbuhan kadar keuntungan, Pulangan Atas Aset (ROA) meningkat dari 0.2% kepada 0.3% dan Pulangan Atas Ekuiti (ROE) meningkat 2.6% kepada 5.4%. Aset Ketara Bersih (NTA) Bank juga meningkat dari RM1.37 setahun yang lalu kepada RM1.46.

بنك معاملات

Bank Muamalat

Aset

Jumlah aset Bank meningkat sebanyak RM324 juta kepada RM5.4 bilion pada 31 Disember 2001 berbanding RM5.1 bilion pada tahun kewangan yang lepas. Komposisi aset yang menyumbang kepada Bank juga bertambah kepada 95% berbanding 87.9% pada tahun lepas. Komponen terbesar dalam aset adalah Pembiayaan (36.1%), Pelaburan Sekuriti (27.9%) dan Penglibatan dalam Pasaran Wang (21.3%).

Pembiayaan

Permintaan bagi pembiayaan Bank terus meningkat dan aset pembiayaan tumbuh sebanyak RM278 juta atau 15.3% bagi mencatat RM2,091 juta. Selari dengan tujuarah strategik Bank, fokus pembiayaan adalah tertumpu dalam bidang pembiayaan dagangan dan pembiayaan projek kerana Bank secara perlahan-lahan mengurangkan pembiayaan di bawah konsep Bai' Bithaman Ajil (BBA). Mengikut sektor, pendedahan Bank adalah masih di dalam bentuk pembelian rumah kediaman (37%) walaupun dengan kadar yang menurun, diikuti dengan sektor pembuatan (25%) dan pembinaan (10%). Pihak Bank berazam memperbaiki pendedahannya mengikut sektor bagi meningkatkan profil risiko secara keseluruhan.

Pelaburan Pasaran Modal Islam

Potfolio pelaburan Bank meningkat sebanyak RM127.5 juta dalam tahun kewangan untuk mencapai RM1,521.4 juta iaitu pertumbuhan sebanyak 9.1%. Dalam tahun kewangan ini, Bank telah berjaya mengeluarkan Bond Bersiri Al-Istina' berjumlah RM780 juta untuk Projek Stesen Janakuasa Prai melalui penglibatannya sebagai Pengatur Utama Bersama. Ini adalah penglibatan kita yang pertama di dalam pengeluaran Pasaran Modal Islam dan pihak Bank kini sedang meneliti beberapa cadangan yang berpotensi. Pasaran Modal Islam juga merupakan salah satu fokus utama dalam tujuarah strategik Bank.

Kualiti Aset

Bank mengalami sedikit penurunan di dalam kualiti aset dengan pembiayaan tidak berbayar meningkat sebanyak RM59.1 juta yang mengakibatkan Nisbah Pembiayaan Tidak Berbayar meningkat dari 6.8% ke 7.3%. Walau bagaimanapun angka ini lebih rendah berbanding purata industri sebanyak 8.1%. Bagi memperbaiki kualiti aset, pihak Bank sedang mengambil berbagai tindakan pembedahan termasuklah memperkemas sistem-sistem pengurusan Risiko Kredit dan meningkatkan tahap kemahiran pegawai pembiayaan.

Deposit

Deposit daripada pelanggan meningkat sebanyak RM638.8 juta dari RM4,326 juta kepada RM4,965 juta iaitu pertumbuhan sebanyak 15%. Angka ini menandakan meningkatnya tahap keyakinan dan penerimaan pelanggan terhadap Bank. Peningkatan ketara di dalam deposit pelanggan telah meningkatkan kecairan di dalam Bank dan lebih ini digunakan untuk pelaburan di dalam bentuk sekuriti.

Kecukupan Modal

Dengan peningkatan urusniaga, Nisbah Risiko Modal Berwajaran (RWCR) menurun daripada 14.7% kepada 13.2%. Nisbah ini masih tinggi berbanding purata industri sebanyak 12.8% dan melebihi keperluan minima sebanyak 8%.

Rangkaian Cawangan

Rangkaian cawangan Bank dikekalkan sebanyak 40 cawangan domestik dan satu Cawangan Luar Pesisir Labuan dan disokong oleh 6 pusat perkhidmatan. Satu lagi pusat perkhidmatan di UiTM Shah Alam akan ditubuhkan sebelum penghujung tahun ini dan seterusnya menambah jumlah pusat perkhidmatan kepada tujuh.

Sumber Manusia

Bank akan terus memberi penekanan kepada mempertingkatkan teras kecekapan, pengurusan risiko dan peningkatan kemahiran dan pengetahuan terutamanya di dalam analisis kewangan. Latihan dalam Program Sijil Kredit (CCP), pasaran modal dan pembiayaan dagangan turut diberi penekanan. Bank juga mengambil kakitangan baru yang mempunyai kemahiran tertentu bagi mengisi jawatan-jawatan di dalam pembangunan perniagaan selaras dengan tujuarah strategik Bank.

Teknologi Maklumat

Pihak Bank telah mula memperkenalkan sistem IT baru, Sistem Alltel, yang dijadualkan selesai pada bulan September 2002. Sebuah Jabatan khas, Pejabat Pengurusan Projek telah ditubuhkan pada 1 November 2001 untuk mengurus pelaksanaan sistem IT baru ini. Tindakan Bank menggunakan sumber luaran bagi mengendalikan proses perbankan bukan teras adalah selari dengan tujuarah Pelan Induk Sektor Kewangan. Di samping itu, Bank telah menggunakan perisian khusus bagi menyokong proses membuat keputusan dan juga meningkatkan sistem kewangan termasuk Sistem Maklumat Fail Pelanggan (CIF) dan Sistem Pengurusan Kredit (CMS) sejajar dengan usaha Bank untuk meningkatkan produktiviti dan kecekapan.

Prospek

Untuk tahun 2002, ekonomi negara dijangka mencatat pertumbuhan yang lebih tinggi di antara 3.5% hingga 4.0%. Memandangkan prospek positif pada tahun 2002, pihak

بنك معاملات

Bank Muamalat

Bank menjangka pelanggan memerlukan pembiayaan tambahan terutamanya di dalam Pembiayaan Dagangan dan Pasaran Modal Islam. Dengan pengenalan produk dan perkhidmatan perbankan Islam yang lebih inovatif, adalah dijangka sektor perbankan Islam akan terus mencatat pertumbuhan pada tahun 2002. Pelaksanaan sistem IT baru pada suku ketiga 2002 dan disokong oleh strategi pemasaran yang lebih agresif, Bank berharap dapat menarik lebih banyak perniagaan dari sektor komersil dan korporat.

Penghargaan

Prestasi yang menggalakkan di bawah tahun kajian adalah hasil dedikasi dan komitmen yang dikongsi bersama oleh Pemegang Saham, Lembaga Pengarah, Majlis Penasihat Syariah, Pengurusan dan kakitangan termasuklah sokongan kukuh daripada pelanggan-pelanggan Bank.

Pihak Lembaga Pengarah ingin merakamkan ucapan terima kasih yang ikhlas dan sanjungan tinggi kepada ahli Lembaga Pengarah yang telah bersara iaitu Y.Bhg Dato' Balia Yusof Haji Wahi dan Y.Bhg Dr. Rozali Mohamed Ali atas khidmat yang tidak ternilai dan sumbangan sewaktu tempoh perkhidmatan mereka sebagai Pengarah Bank.

Saya berharap komitmen dan dedikasi yang sama dapat terus disumbangkan agar kita akan mencapai pertumbuhan dan pembangunan yang berterusan di tahun-tahun akan datang.

DATUK ISMAIL BIN HAJI AHMAD

CHAIRMAN'S STATEMENT

On behalf of the Board of Directors, I have great pleasure in presenting the Annual Report and the Audited Financial Statements of Bank Muamalat Malaysia Berhad for the year ended December 2001.

Operating Environment

2001 was a very challenging year for the banking sector because of the slowdown in the global economy. Our domestic economy expanded marginally by 0.4% compared to 8.3% achieved in 2000. The drastic fall in growth rate is translated into a marginal growth in loans and financing of only 3.6% for the banking sector while deposits suffered a decline by 2%. The difficult economic conditions have also resulted in many failing businesses and increase in non-performing loans.

Despite the slower economic growth in 2001, the Islamic banking sector managed to register a sustained growth. It has achieved a 8.2% market share of the total banking assets in the country. The Islamic Banking and Takaful Week from October 26 to November 1, 2001, initiated by Bank Negara Malaysia has successfully raised the level of understanding and utilisation of Islamic banking products and services. Although operating under a difficult economic environment, I am pleased to report that for the financial year under review, Bank Muamalat has achieved significant growth in terms of deposits, assets, financing and profitability.

Financial Results

The Bank recorded a commendable profit of RM18.4 million before taxation and zakat for the year ended 31 December 2001 compared to RM8.2 million last year.

Total revenue increased by 86% from RM143 million in 2000 to RM287 million in 2001. Major revenue was contributed from financing income amounting to RM147.4 million or 51.3% of total income and followed by income from investment securities, which contributed RM83.5 million or 29%. Accordingly, the Bank paid higher dividends and hibah to depositors, which recorded an increase of 64% to RM129.4 million.

With the growth in profitability, the Bank has managed to improve its Return on Asset (ROA) to 0.3% from 0.2% and Return on Equity (ROE) to 5.4% from 2.6%. The Net Tangible Asset (NTA) of the Bank has also increased from RM1.37 a year ago to RM1.46.

Assets

Total assets of the Bank expanded by RM324 million to stand at RM5.4 billion as at 31 December 2001 compared to RM5.1 billion at the end of the last financial year. The composition of earning assets has also increased to 95.0% compared to 87.9% last year. Major components of assets are Financing (36.1%), Investment Securities (27.9%) and Money Market Placement (21.3%).

Financing

Demand for financing from our Bank continued to increase and financing assets grew by RM278 million or 15.3% to RM2,091 million. Consistent with our strategic direction, the focus for financing is on trade finance and project financing as the Bank is slowly moving away from the Bai' Bithaman Ajil (BBA) form of financing. On sectoral basis, our largest exposure is still on Residential property (37%) albeit declining in trend, followed by Manufacturing (25%) and Construction (10%). The Bank is committed to improve its sectoral exposure in order to strengthen the overall risk profile.

Investment and Islamic Capital Market

The Bank's investment portfolio increased by RM127.5 million during the year to stand at RM1,521.4 million, reflecting a growth of 9.1%. During the year, the Bank also successfully raised the Al-istisna' Serial Bond amounting to RM780 million for Prai Power project in the capacity of a Co-Lead Arranger. This is our first involvement in Islamic Capital Market issuance and the Bank is currently working on a few other potential deals. The Islamic Capital Market is also one of our primary focus in our strategic direction.

Asset Quality

The Bank experienced a slight deterioration in the asset quality with non-performing financing increasing by RM59.1 million, resulting in net NPF ratio increasing from 6.8% to 7.3%. However, it is still lower than industry average of 8.1%. In order to address the asset quality, the Bank is taking various corrective measures including strengthening the Credit Risk Management System and upgrading the skill level of the financing executives.

Deposits

Deposits from customers increased quite substantially by RM638.8 million from RM4,326 million to RM4,965 million or an increase of 15%. This is an indication of an increasing confidence and acceptance level of our customers towards our Bank. The surge in the customer's deposits has also increased our liquidity with excesses invested in liquid investment securities.

Capital Adequacy

Due to business expansion, Risk Weighted Capital Ratio decreased to 13.2% from 14.7%. The ratio is still higher than the industry average of 12.8% and well above the minimum requirement of 8%.

Bank Network

The Bank's network of branches was maintained at 40 domestic branches and one Labuan Offshore Branch and supported by 6 service centres. Another service centre at UiTM, Shah Alam will be established before the end of the year, thus increasing the number of service centres to seven (7).

Human Resources

The Bank will continue to emphasise on improving the core competencies, risk management and upgrading of skills and knowledge particularly in financial analysis. Training in Credit Certification Program (CCP), capital market and trade finance was also given priority. In addition, new staff with specific competencies were also recruited to fill in the critical positions for business development in line with the Bank's strategic business direction.

Information Technology

The Bank has embarked on the implementation of a new IT system, the Alltel System, which is scheduled to be completed in September 2002. A special department, the Project Management Office was also established on November 1, 2001, to manage the implementation of the new IT system. The Bank's efforts in out-sourcing its non-core banking processes is in line with the Financial Sector Master Plan's direction. In addition, the Bank has also acquired a specialised software to support decision-making processes and upgrading of financing systems including Customer Information File System (CIF) and Credit Management Solutions (CMS), in line with the Bank's efforts to improve productivity and efficiency.

بنك معاملات

Bank Muamalat

Prospects

For the year 2002, the economy is expected to attain higher growth of 3.5% - 4%. In view of the positive prospects for growth in 2002, we anticipate that the Bank's customers would require additional financing especially in Trade Finance and the Islamic Capital Market. With the introduction of more innovative Islamic banking products and financial services, it can be expected that the Islamic banking sector will continue to enjoy sustained growth in 2002. Through the implementation of the new IT system during the third quarter of 2002 to be supported by a more aggressive marketing strategy, the Bank hopes to attract more business from the commercial and corporate sectors.

Acknowledgement

The good performance for the year under review has been made possible because of the shared dedication and commitment given by the Shareholders, Board of Directors, Syariah Advisory Council, Management team and staff including the strong support of the customers of the Bank.

The Board wishes to record its sincere thanks and appreciation to our retiring directors comprising Y.Bhg. Dato' Balia Yusof Haji Wahi and Y.Bhg. Dr. Rozali Mohamed Ali for their invaluable services and contribution during their term of service as directors with the Bank. The Board also takes this opportunity to welcome Encik Ashari Ayub, Tuan Haji Othman Abdullah, Encik Jamil Hajar Abdul Muttalib and Y.Bhg. Datin Azizah Mohd Jaafar as new Members of the Board.

On behalf of the Board, we wish to thank the Ministry of Finance, Bank Negara Malaysia, Khazanah Nasional Berhad and Commerce Asset-Holding Berhad for their support and guidance. To our customers and business partners, I wish to record our Bank's sincere appreciation and gratitude.

Finally, I would like to extend my personal gratitude and appreciation to all Directors and staff who have remained committed to the Bank's mission and objectives and have given their undivided loyalty and hard work which had contributed towards the success of the Bank. And I would hope to continue receiving the same commitment and dedication so that we could achieve sustained growth and development in the years ahead.

PELAN PERNIAGAAN 2002

Bank akan terus menumpukan kegiatan-kegiatan perniagaannya khusus dalam tiga segmen pasaran, iaitu Pembiayaan Projek, Pembiayaan Perdagangan dan Pasaran Modal Islam. Tumpuan khusus ke atas Pembiayaan Projek adalah seiring dengan program-program infrastruktur dan pembangunan oleh Kerajaan untuk meningkatkan ekonomi domestik. Bagi Pasaran Modal Islam, Bank telah menubuhkan Cawangan Luar Pesisir Labuan dan Jabatan Pelaburan Perbankan untuk mengambil bahagian dalam sektor ini. Sementara pertumbuhan dalam perniagaan diteruskan, Bank akan terus meningkatkan keupayaan sistem pengurusan risikonya bagi terus meningkatkan kualiti asetnya seiring dengan garis panduan bagi pelaksanaan terbaik diterbitkan oleh Bank Negara Malaysia terutamanya bagi risiko kredit.

Bank juga telah memulakan usaha baru dalam projek utama Teknologi Maklumat (IT) membabitkan penghijrahan ke platform baru. Penyempurnaan projek ini dalam tahun kewangan semasa dijangkakan akan meningkatkan kecekapan pengendalian Bank terutama di dalam perkhidmatan pelanggan.

PROSPEK BAGI 2002

Ekonomi akan terus berkembang dalam 2002, walaupun dunia mengalami kelembapan ekonomi. Prestasi positif didorong oleh rangsangan perbelanjaan fiskal yang kuat dan kepelbagaian struktur ekonomi.

Sistem Perbankan Islam (SPI) berada dalam aliran ke atas, dengan jumlah deposit, pembiayaan dan saham pasaran terus meningkat. SPI juga berterusan mencatatkan keuntungan yang baik bagi tahun 2001. Ini menunjukkan sokongan kuat yang diterima oleh SPI dari masyarakat.

Tahun 2002 meramalkan pertumbuhan yang lebih tinggi sekitar 3%. Ini adalah amat menggalakkan dari sektor perbankan terutama apabila ekonomi dijangka pulih pada separuh kedua 2002 seperti ditunjukkan oleh penambahbaikan dalam petunjuk utama. Selanjutnya, pemulihan ekonomi Amerika Syarikat pastinya akan menambah keyakinan pengeluar dan pengguna di Malaysia. Walau bagaimanapun, dunia khususnya negara-negara Asia masih diancam oleh ketidakpastian ekonomi Jepun.

Berkaitan dengan permintaan bagi Perbankan Islam, masih banyak lagi peluang untuk berkembang terutama dalam pembiayaan dan juga pasaran modal Islam. Tambahan pula, dengan penyatuan perbankan yang hampir tamat, SPI akan terus bertambah kuat dan lebih berdayasaing.

RESERVES AND PROVISIONS

There were no material movements in reserves or provisions during the year other than those disclosed in the accounts.

BAD AND DOUBTFUL FINANCING

Before the accounts of the Bank were made out, the Directors took reasonable steps to ascertain that proper action had been taken in relation to the writing off of bad debts and financing and the making of provisions for non-performing financing and satisfied themselves that all known bad financing had been written off and adequate provisions had been made for non-performing financing.

At the date of this report, the Directors are not aware of any circumstances which would render the amount written off for bad financing, or the amount of the provision for non-performing financing, in the accounts of the Bank inadequate to any substantial extent.

CURRENT ASSETS

At the date of this report, the Directors are not aware of any circumstances which would render the values attributed to the current assets in the accounts of the Bank misleading.

No contingent liability or other liability of the Bank has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may affect the ability of the Bank to meet its obligations as and when they fall due.

CHANGE OF CIRCUMSTANCES

Neither at the end of the financial year, nor at any time during that period, did there subsist any arrangements to which the Bank is a party whereby Directors might acquire benefits by means of the acquisition of shares in, or debentures of, the Bank or any other corporate body.

HOLDING COMPANY

The holding company of the Bank is Khazanah Nasional Berhad which is incorporated in Malaysia.

BUSINESS PLAN 2002

The Bank will continue to focus its business activities primarily on three market segments, namely Project Financing, Trade Financing and Islamic Capital Market. The focus on Project Financing in particular is tandem with the infrastructure and development programmes undertaken by the government to boost domestic economy. On the Islamic Capital Market, the Bank has set up a Labuan Offshore Branch and Investment Banking Department to participate in this sector. While growth in business is pursued, the Bank will continuously enhance its risk management system capabilities to further improve its asset quality in line with the guidelines on best practices issued by Bank Negara Malaysia especially on credit risk.

The Bank has also embarked on a major IT project involving the migration to a new platform. The completion of this project within the current financial year is expected to further enhance the Bank's operational efficiency especially in the area of customer service.

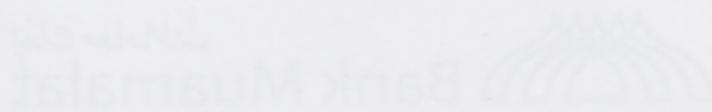

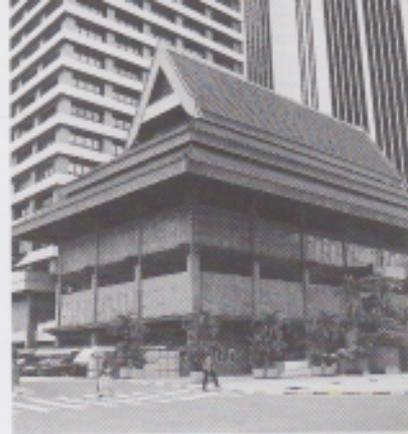

PROSPECTS FOR 2002

The economy continued to expand marginally in 2002, despite the slowing down of the world economy. The positive performance was driven by the strong fiscal stimulus expenditure and the diversified structure of our economy.

The Islamic Banking System (IBS) remains on an uptrend, with its total deposits, financing and market share continued to increase. The IBS also continued to record good profits for the year 2001. These reflect strong support the IBS received from the public.

Year 2002 is expected to see a higher growth of around 3%. This is very encouraging for the banking sector particularly when the economy is expected to recover during the second half of 2002 as shown by the improvement in key indicators. In addition, the gradual US economic recovery would certainly improve the producers' and consumers' confidence in Malaysia. Nevertheless, the world especially the ASEAN countries, is still threatened by the uncertain outlook of the Japanese economy.

As far as the demand for Islamic Banking is concerned, there are still a lot of opportunities for growth especially

in the financing as well as the Islamic Capital Market. Furthermore, with the banking merger nearing completion, the IBS will be further strengthened and more competitive.
