FUND INFORMATION

Fund Objective

The Muamalat-i Dana Sinar ("the Fund") aims to generate regular income for unit holders. Income can be distributed either in the form of cash or units.

Investment Strategy

- The Fund seeks to achieve its investment objective by investing 70% to 98% of its NAV in Islamic Investment Notes issued by eligible issuers through Recognized Market Operator ("RMOs") that are peer-to-peer ("P2P") operators.
- The Fund may also invest 2% to 30% of its NAV in Islamic money market instruments, Islamic deposits and/or sukuk.
- However, the Fund may deviate from the aforesaid asset allocation and invest up to 100% of its NAV in Islamic money market instruments, Islamic deposits and/or sukuk in the following circumstances:
 - during its inception and/or intermittently throughout the investment mobilisation phase as deemed necessary by the Manager to facilitate efficient portfolio management;
 - if the size of the Fund is relatively small;
 - where the Fund does not have sufficient monies to invest in Islamic Investment Notes;
 - if the Manager is of the opinion that investments in Islamic Investment Notes are not attractive; or
 - when the Manager employs temporary defensive position during adverse market condition.
- The average effective maturity of the Islamic Investment Notes of the Fund shall not exceed 3 years.
- The Manager will consider both the quantitative and qualitative aspects of the issuers of the Islamic Investment Notes when selecting eligible issuers of the Islamic Investment Notes to be invested by the Fund.
