

MUAMALAT INVEST ISLAMIC EQUITY FUND ("THE FUND")
31 OCTOBER 2021
FUND INFORMATION
Fund Objective

The Fund seeks to achieve capital appreciation over medium to long term period.

Investment Strategy

- The Fund targets an allocation of up to 95% of the Fund's NAV in Shariah-compliant equities and Shariah-compliant equity-related instruments, and a maximum of 30% of the Fund's NAV invested in Islamic money market instruments, Sukuk and/or Islamic liquid assets. The selection of Shariah-compliant equity investments of the Fund will be in line with those in the list of Shariah-compliant securities issued by SAC.
- The selection of Sukuk and Islamic money market instruments will depend largely on its credit quality where the respective issuers of Sukuk and Islamic money market instruments are required to possess strong ability to meet their financial obligations and offer highest safety for timely payment of profit and principal.

Income Distribution Policy

The Fund is not expected to make distribution. However, incidental distribution may be declared whenever is appropriate - subject to the availability of realized income.

Mode of Distribution

All income distribution proceeds, if any, will be automatically reinvested as additional Units at the NAV per Unit within three (3) Business Days following the income distribution declaration date at no charge, unless otherwise requested by Unit Holders.

ASSET ALLOCATION

FUND MANAGER'S COMMENTARY

- The FBMKLCI ended the month of October higher at 1,562.31 points, increased by +1.59% (+24.51 points) from 1,537.80 points a month earlier. The broader FBMS also trended the month higher by +1.88% (232.58 points) to 12,591.59 points from previous month's close of 12,359.01 points as foreign investors turned net buyers for four consecutive weeks on Bursa Malaysia
- Since the beginning of 2021, cumulatively, retailers have been the only net buyers of our equity market to the tune of RM10.71 billion. Local institutions and foreign investors were net sellers to the tune of RM8.53 billion and RM2.18 billion, respectively.
- We advocate buying on weakness especially in mid-to-large cap space to ride on the improving outlook whilst dividend yield counters continue to be the amongst the portfolio's mainstay- providing core sustainable income. We will also be consistent in the lookout for trading opportunities even in the small cap counters whilst advocating to exit lost-cause counters, re-invest in majorly sold down key blue chips and to take-profit whenever the opportunity rises.
