FUND MANAGER’S COMMENTARY

- Moving forward, demand for local bonds will likely be pressured in the near term amid global risk-off sentiment triggered by the Russia-Ukraine conflict and as the US Fed is expected to raise its policy rate in March. Despite this, we expect foreign inflows to recover in the long-term as Malaysia is likely to chart a solid economic recovery.
- In view of the uncertain global economic outlook and volatile market condition, the Manager in its opinion will solely focus on capital preservation exercise and maintaining short to medium cash portfolio with approved financial institutions.
