FUND MANAGER'S COMMENTARY

- · Bank Negara Malaysia (BNM) has maintained the overnight policy rate (OPR) at 1.75% following the Monetary Policy Committee (MPC) in May 6. BNM reduced the OPR four times last year, totalling a cumulative reduction of 125 basis points (bps), to boost the pandemic-struck economy.
- Moving forward, in the short term period, we think Malaysia's bond market will continue to be mixed; shorter tenure papers will continue to see relative support from the well-anchored policy rate at 1.75%. However, medium to longer tenures are likely to be pressured due to long bond auctions in May as well as relatively higher UST yields.
 - In view of the uncertain global economic outlook and volatile market condition, the Manager in its opinion will solely focus on capital preservation exercise and maintaining short to medium cash portfolio with approved financial institutions.
