FUND MANAGER'S COMMENTARY

- Moving forward, we believe foreign demand for local bonds will sustain in the near term, although it may be tempered by the Fed's expected tapering announcement. Malaysian bonds will be supported by domestic political stability, the further relaxation of restriction measures, and high yield differentials; the 10Y MGS-UST yield spread stands at 191.1bps. However, inflows may begin to reduce from November on the Fed's expected tapering announcement.

- In view of the uncertain global economic outlook and volatile market condition, the Manager in its opinion will solely focus on capital preservation exercise and maintaining short to medium cash portfolio with approved financial institutions.
