**FUND MANAGER'S COMMENTARY**

- Moving forward, monetary policy is expected to remain accommodative and supportive of economic recovery while ensuring prices remain manageable. Meanwhile, the financial market is anticipated to continue to be vibrant. The positive outlook will be underpinned by the Capital Market Master Plan 3 (CMP3) and Blueprint 3.06 initiatives, ongoing stimulus measures, infrastructure projects and future strategic projects under the Twelfth Malaysia Plan, 2021 – 2025. We expect foreign flows into the Malaysian bond market to remain pressured in the near term, on the back of an increasingly hawkish US Fed and a global resurgence in COVID-19 cases. However, local bonds could benefit from subsiding global risk-aversion as studies indicate that Omicron infections may be less severe than other variants.
- In view of the uncertain global economic outlook and volatile market condition, the Manager in its opinion will solely focus on capital preservation exercise and maintaining short to medium cash portfolio with approved financial institutions.
