**FUND MANAGER'S COMMENTARY**

- In near term, our view remains that the fiscal deficit-to-GDP ratio for 2021 will likely stay under 7% of GDP, and that full-year government debt issuances will be near our pre-existing forecast of MYR160b. We think the government has an eye on longer term fiscal consolidation and will target debt-to-GDP level back towards the self-imposed 55% level in the longer-term horizon. Indeed, we witnessed that despite reports of Malaysia's fiscal challenges, the latest government securities auction met with strong demand. We opine that 10y MGS yield may stay in the 3.10-3.30% range, but over the medium term we foresee an increase in 10y yield to 3.50% by end-2021.
- In view of the uncertain global economic outlook and volatile market condition, the Manager in its opinion will solely focus on capital preservation exercise and maintaining short to medium cash portfolio with approved financial institutions.
