FUND MANAGER'S COMMENTARY

- Going forward, we expect MYR government bond to stay resilient despite downside risk following re-imposition of full MCO 3.0. The MGS yields saw mild upward trajectory, reinforcing our view that the MGS/MGII to remain supported as bond dynamic are healthy on the back of support from the local onshore investors. MGS/MGII trading volume is likely to pick up in June 2021 as we expect rotational flow into relatively safer MYR government bond to forthcoming amid cautious risk sentiment. In the MYR corporate bonds/sukuk sector, we expect primary issuances to recover gradually post-MCO 3.0 and stay robust in 2H21 amid accommodative monetary policy rate landscape.
- In view of the uncertain global economic outlook and volatile market condition, the Manager in its opinion will solely focus on capital preservation exercise and maintaining short to medium cash portfolio with approved financial institutions.
