**FUND MANAGER'S COMMENTARY**

- Moving forward, we maintain our MGS outlook at neutral and mildly bullish on duration, expecting additional curve flattening over the medium term although the 3y10y and 5y30y spread has already narrowed by a fairly substantial 20bp and 30bp respectively. Our 10y MGS yield forecast is unchanged at 3.50% by end-2021, with some upside risk amid volatilities and hawkish turn in the US and DM rates markets. Foreign demand for domestic bonds may remain pressured in the near-term, on the back of a global bond sell-off and the Fed's imminent tapering announcement. However, government bonds may find some support from the expansionary Budget 2022 and rising yield differentials.
- In view of the uncertain global economic outlook and volatile market condition, the Manager in its opinion will solely focus on capital preservation exercise and maintaining short to medium cash portfolio with approved financial institutions.
